Attn: Mr. A. L. Porter, Jr.

Gentlemen:

TEXACO Inc. respectfully requests that a hearing be set to consider its application for a triple tubingless completion of its V. M. Henderson Well No. 7 in the Drinkard, Paddock, and Penrose-Skelly (Grayburg) pools, Lea County, New Mexico. All three zones are anticipated to be oil completions and will be produced through parallel strings of 2-3/8" OD buttress tubing cemented in a common well bore. In support of our application we wish to state the following facts:

1. TEXACO Inc. is the operator of the V. M. Henderson Lease which consists of the N/2 of Section 30, T-21-S, R-37-E, Lea County, New Mexico.
2. The V. M. Henderson Well No. 7 is located in Unit F, Section 30, T-21-S, R-37-E.
3. The Drinkard is anticipated to be an oil completion and will be produced through perforations 6620' to 6690'.
4. The Paddock is anticipated to be an oil completion and will be produced through perforations 5140' to 5150'.
5. The Penrose-Skelly (Grayburg) is anticipated to be an oil completion and will be produced through perforations 3670' to 3770'.
6. It is anticipated that the Drinkard and Paddock completions will flow initially and that the Grayburg completion will be artificially lifted initially.
