Lubbock, Texas ico O Midland, Texas O :ation? YES NO If answer is yes, give date

Vafter said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.
NOTE: If the proposed dual completion will result in an unorthodox well location and/or a non-standard proration unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.

OIL CONSERVATION COMMISSION

1 Jze 2466

P. O. BOX 871 SANTA FE, NEW MEXICO

December 1, 1961

Shell Oil Company P. O. Box 1858 Roswell, New Mexico

Attention: Mr. R. L. Rankin, Division Production Manager

Gentlemen:

Reference is made to your application for administrative approval to dually complete your Turner Well No. 7 in the Penrose-Skelly Oil and Eumont Gas Pools, and for the establishment of a 320-adre non-standard gas provation unit in the Humont Gas Pool to be dedicated to your Turner Well No. 7 in Section 22, Township 21 South, Range 37 East, Les County, New Mexido.

Your application to dually complete your Turner Well No. 7 is eligible for administrative approval, however, in regard to your application for the establishment of a 320-acre non-standard gas proration unit, your attention is directed to Order No. R-1670, Rule 5(B) establishing General Rules and Regulations for Southeastern New Mexico, which requires location of a well to be 660 and 1980 feet from the two nearest boundary lines of a 320-acre non-standard gas provation unit in gas pools where the standard gas provation unit is 640 acres.

In view of the fact that the location of your Turner Well No. 7 is at an unorthodox location under the above-mentioned Rule 5(B), your application for a 320-acre non-standard gas proration unit in the Mumont Gas Poel is being set for hearing before one of the Commission's Mumminers on January 4, 1962.

Please advise in the event I can be of further assistance to you in this matter.

Very truly yours,

J. E. WHITFIELD Logal Assistant
