Attn: Mr. A. L. Porter, Jr.

Gentlemen:

Order #R-2223 (Case #2511) of the State of New Mexico Oil Conservation Commission orders "that the applicant (Texaco Inc.) shall furnish the Commission and each non-consenting working interest owner in the subject unit an itemized schedule of total well costs within 30 days following the date of entry of this Order." The Order of the Commission is dated April 26, 1962.

Texaco, in compliance with the Order, submits the enclosed well costs for Texaco's L. M. Barton Well #1 and the percentage of ownership of the working interest owners in the unit comprising the W $\frac{1}{2}$  Section 12-30N-12W. Pan American has 30 days from the date the said schedule of well costs is furnished by Texaco to pay in cash its share of said well costs in lieu of paying its share of well costs out of production.

Please advise on or before June 22, 1962, what your election will be.

Yours very truly,
