Should waivers from all offset operators not accompany an application for dual completion, the New Mexico Oil Conservation Commission will hold the application for a period of 60 days from date of receipt by the Commission's Santa Fe office. If no protest or request for hearing is received by the Santa Fe office, the application will be processed.

NOTE: If the proposed dual completion will result in an unbalanced well, or if more than one standard production unit in either or both of the producing zones, then separate applications for approval of the same should be filed simultaneously with this application.
