DIAGRAMMATIC  
SKETCH of DUAL  
COMPLETION  
NYE No. 9-1

BEFORE THE OIL CONSERVATION COMMISSION  
OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE HEARING  
CALLED BY THE OIL CONSERVATION  
COMMISSION OF NEW MEXICO FOR  
THE PURPOSE OF CONSIDERING:

CASE No. 2565  
Order No. R-2250

APPLICATION OF J. GLENN TURNER  
FOR APPROVAL OF A DUAL COMPLETION  
AND AN UNORTHODOX GAS WELL LOCA-  
TION, SAN JUAN COUNTY, NEW MEXICO.

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 o'clock a.m. on May 23, 1962, at Santa Fe, New Mexico, before Elvis A. Utz, Examiner duly appointed by the Oil Conservation Commission of New Mexico, hereinafter referred to as the "Commission," in accordance with Rule 1214 of the Commission Rules and Regulations.

NOW, on this 4th day of June, 1962, the Commission, a quorum being present, having considered the application, the evidence adduced, and the recommendations of the Examiner, Elvis A. Utz, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, J. Glenn Turner, seeks approval of an unorthodox location for his Nye Well No. 9-1 at a point 1810 feet from the North line and 900 feet from the West line of Section 9, Township 29 North, Range 10 West, NMPM, San Juan County, New Mexico, this location being off-pattern for the Blanco-Mesaverde Gas Pool.

(3) That inasmuch as the subject well was originally projected to the Dakota formation only and is located at a standard Dakota location, and inasmuch as approval of the unorthodox location will neither cause waste nor impair correlative rights, it should be approved.

(4) That the applicant seeks permission to complete the subject well as a dual completion (conventional) in such a manner as to produce gas from the Blanco-Mesaverde and Basin-Dakota Gas Pools through parallel strings of 1 1/2-inch and 2 1/16-inch tubing, respectively.

-2-

CASE No. 2565  
Order No. R-2250

(5) That inasmuch as the proposed dual completion is feasible and in accord with good conservation practices, it should be approved.

IT IS THEREFORE ORDERED:

(1) That J. Glenn Turner is hereby authorized to locate his Nye Well No. 9-1 at an unorthodox location 1810 feet from the North line and 900 feet from the West line of Section 9, Township 29 North, Range 10 West, NMPM, San Juan County, New Mexico.

(2) That the dual completion of the subject well in such a manner as to produce gas from the Blanco-Mesaverde and Basin-Dakota Gas Pools through parallel strings of tubing is hereby authorized.

PROVIDED HOWEVER, That the applicant shall complete, operate and produce said well in accordance with the provisions of Rule 112-A.

PROVIDED FURTHER, That zone segregation tests shall be taken upon completion and annually thereafter during the Deliverability Test Period for the Blanco-Mesaverde Gas Pool.

(3) That jurisdiction of this cause is retained for the entry of such further orders as the Commission may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.

STATE OF NEW MEXICO  
OIL CONSERVATION COMMISSION
