PETROLEUM PRODUCTS

DOMESTIC PRODUCING DEPARTMENT

P. O. BOX 3109  
MIDLAND, TEXAS

October 1, 1962

New Mexico Oil Conservation Commission  
P. O. Box 871  
Santa Fe, New Mexico

Attn: Mr. A. L. Porter, Jr.

Gentlemen:

Texaco Inc. respectfully requests that a hearing be set to consider its application for two 120-acre non-standard gas proration units to be dedicated to the Texaco J. K. Rector Wells No. 2 and 3, Eumont (Gas) Field, Lea County, New Mexico. The two subject wells are currently completed in and are producing from the Eumont (Gas) Field. In support of our application we wish to state the following facts:

1. Texaco Inc. is the operator of the J. K. Rector lease which contains 200 acres and consists of the SE/4 of Section 30, and the N/2 of the NE/4 of Section 31, T-21-S, R-36-E, Lea County, New Mexico.
2. At the present time Texaco Inc. has three wells completed in the Eumont (Gas) Pool on this lease.

Well No. 2, located in Unit P, Section 30, currently has a 40-acre gas proration unit consisting of the SE/4 SE/4 of Section 30 dedicated to it.

Well No. 3 is located in Unit J, Section 30, and currently has an 80-acre proration unit consisting of the N/2 of the SE/4 of Section 30 dedicated to it.

Well No. 4 is completed in Unit O, Section 30, and currently has a 120-acre proration unit consisting of the SW/4 SE/4 Section 30 and N/2 NE/4 Section 31 dedicated to it.

DOCKET MAILED

Date 10-11-62

October 1, 1962

3. All three of the Eumont Gas wells on this lease are capable of producing gas from the Eumont Reservoir at this time; however, Well No. 4 will produce for only short periods before becoming waterlogged, and it is, therefore, necessary to almost continually swab this well if production is to be maintained.
4. Texaco proposes to plug and abandon Well No. 4 and rededicate the acreage such that Well No. 2 will have a 120-acre proration unit consisting of the E/2 of the SE/4 Section 30 and NE/4 NE/4 Section 31 dedicated to it and Well No. 3 will have a 120-acre proration unit consisting of the W/2 SE/4 Section 30 and NW/4 NE/4 Section 31 dedicated to it.
5. It can reasonably be assumed that all acreage on the lease is productive of gas from the Eumont Gas Reservoir.

Attached is a copy of the ownership map for the Texaco J. K. Rector lease and the area immediately surrounding this lease. Also attached is a list of the offset operators and their mailing addresses. It is respectfully requested that this hearing be set on the first available Examiner hearing docket.

Yours very truly,

C. R. Black  
Division Proration Engineer
