PACKER-SETTING AFFIDAVIT
(Dual Completions)

STATE OF New Mexico)
County of Lea) ss

J. R. Short, being first duly sworn according to law, upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by Mobil Oil Corporation in the capacity of Drilling Foreman and as such is its authorized agent.

That on May 13, 1966, he personally supervised the setting of a Hydraulic Holddown Brown Oil Tool #HS-H-2 Husky Dual Packer in Mobil's (Make and Type of Packer) (Operator)
State-Bridges Lse Well No. 96, located in Unit (lease)
Letter H, Section 26, Township 17-S, Range 34-E, NMPM, Lea County, New Mexico.

That said packer was set at a subsurface depth of 9568 - 9574 feet, said depth measurement having been furnished by Schlumberger on Line.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.
