Subject: Case Nos. 2808, 2809,
2810 and 2811
NMOCC Statewide Hearing
May 15, 1963

Mr. A. L. Porter, Jr.
Secretary-Director
New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Sir:

Reference is to Case Nos. 2808, 2809, 2810 and 2811 which have been docketed to be heard on the Commission's own motion at the May 15, 1963 Statewide Hearing.

After study of the Commission's proposed revisions in the various Statewide Rules involved, it is believed that these revisions will serve to clarify existing rules, reduce the number of required hearings, and reduce the testing requirements of operators without compromising the intent of the rules or sacrificing quality of information available to the Commission. Pan American Petroleum Corporation, as an operator in the state of New Mexico, therefore urges the Statewide Rule amendments as proposed by the Commission under the above cited cases.

Yours very truly,

W. V. Grisham

PHILLIPS PETROLEUM COMPANY

AIR MAIL

New Mexico Oil Conservation Commission
Box 871
Santa Fe, New Mexico

Attention Mr. A. L. Porter, Jr.,
Secretary-Director

New Mexico Oil Conservation
Commission - Revision of State-
wide Rule 112

Gentlemen:

At Roswell on May 15 you will consider the amendment of State-wide Rule 112 to permit administrative approval by the Secretary-Director of the Commission of conventional triple completions of wells.

Phillips Petroleum Company urges that the Commission adopt the proposed amendment. Thereby, unnecessary hearings will be avoided, thus, lowering the cost of producing oil and gas in the State of New Mexico.

Yours very truly,

Earl Griffin, Manager
Production Division
