La Esperanza No. 1 Well
Case No. 2814

Gentlemen:

Copy has been received and is acknowledged of Notice that the Oil Conservation Commission intends to hold a Hearing on the captioned cause on the 22nd of May, 1963.

On April 23, 1963 we advised Mr. George Chase, Chase Well Service, P.O. Box 637, Artesia, New Mexico that his plugging bid had been accepted and he was authorized to immediately commence the necessary operations to plug the well in accordance with requirements of the State of New Mexico and further to contact Mr. Ronnie Shook of your Artesia Office in order that the necessary requirements could be obtained.

We have not heard from Mr. Chase and can only assume that he received our letter since it has not been returned. We were under the impression that the necessary was being done to plug this well and that we would soon have acceptance by the State.

It is our intention, under the terms of our Bond, to properly plug this well and I am directing another letter to Mr. Chase to find out the status thereof.

You will hear from us at an early date.

This will supplement my letter to you of May 14, 1963.

I have just finished speaking to Mr. Chase and he advises me that his unit is on the well site today and plugging operations were commenced this morning.
