Case 2852

A P P L I C A T I O N

Applicant, Amerada Petroleum Corporation, states that:

1. Applicant is the owner and operator of the State NJ "A" Lease consisting of the NE 1/4 NE 1/4 of Section 2, T-25-S, R-37-E, Lea County, New Mexico.
2. Subject well was approved triple completion in the North Justis McKee, Fusselman and Ellenburger Pools on January 17, 1962, Order No. R-2164.
3. Fusselman zone was squeezed off in attempt to complete Waddell zone. Waddell zone proved to be nonproductive.
4. The North Justis McKee and Ellenburger zones will be produced thru individual strings of 1-1/2" tubing inside individual strings of 3-1/2" casing.
5. The North Justis Montoya zone will be produced thru 1-1/4" tubing inside 2-7/8" casing.
6. A multiple completion has not previously been approved in the zones under consideration. Hearing is also required in the matter due to the tubing string on the Montoya zone being less than 1.670" I.D.
7. Commingling of oil from the Blinebry, Tubb-Drinkard, Waddell, McKee, Devonian, Fusselman, and Ellenburger zones was granted by Administrative Order PC-84 dated June 1, 1962.
8. Hearing is also required for permission to add to the above zones the Montoya zone.
9. Attached are copies of the Commission's Multiple Completion Form, Plat of Area and Diagrammatic Sketch of the proposed completion, and Diagrammatic Sketch of the surface equipment.

Applicant requests that this matter be set for hearing before an examiner, that notice of the hearing be given as required by law, and that, upon conclusion of the hearing, the Commission enter its order authorizing the proposal set forth above.

Respectfully submitted,
