Tenneco Oil Company  
Suite 1200 - Lincoln Tower Bldg.  
Denver, Colorado 80203

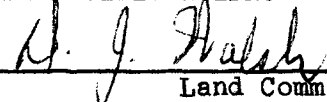

Attention: Mr. W. C. Melnor

Gentlemen:

Reference is made to recent discussions relating to your proposal for the injection of Dakota "D" zone gas from certain lands in Township 17N, Ranges 8 and 9W, McKinley County, New Mexico, and the temporary storage thereof in the Dakota "A" zone reservoir to avoid unnecessary loss of production until completion of a proposed unit plan of development in this same area.

Please be advised that the Santa Fe Pacific Railroad Company concurs in your proposed injection of Dakota "D" zone gas and temporary storage thereof in the Dakota "A" zone reservoir.

Case 4584

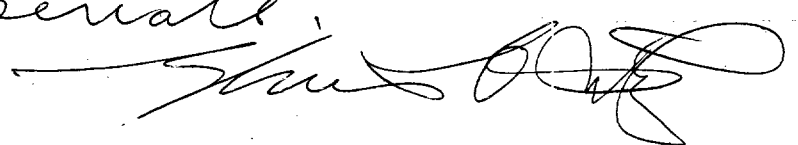

Decd 9-1-71

Rec. 9-2-71

Grant Tenneco permission to convert their Santa Fe Railroad Pacific Railroad #2 L 13-9~~W~~N-17N. to a gas injection well in the Dakota 'A' Sand. Such injection to be the gas produced from the Lk. 'D' Lone Pine oil pool. Also grant ~~administrative~~ procedure for additional gas injection wells.

In view of the fact that the gas in this pool has been flared for ~~about~~ a year and no real effort to save the gas was made until the Communism calling their attention to this. I recommend that the allowable be cut to 50 Bpd. until the gas ~~is~~ stored or sold.

I would not object to skimming in the pool ~~is~~ if the Director feels this appropriate.
