Attention Mr. Daniel S. Nutter, Examiner

RE: Case #5219, April 25, 1974
Examiner Hearing - Midwest Oil Corporation
for Pool Creation, Discovery Allowable,
and Special Pool Rules.
Eddy County, New Mexico

Gentlemen:

Pursuant to the above application, General American Oil Company of Texas, owner of 6.105% working interest in the South Empire Deep Unit, and owner and operator of certain acreage offsetting the South Empire Deep Unit #4 Discovery, wishes to make the following statement at the referenced Examiner Hearing:

"General American Oil Company of Texas supports Midwest Oil Company's request for 80 acre spacing rules for the new Wolfcamp Field discovered in the South Empire Deep Unit #4 Well. General American Oil Company of Texas, however, respectfully requests that the New Mexico Oil Conservation Commission grant these rules on a temporary basis pending additional information on this reservoir to be obtained by future drilling and producing operations."

Yours very truly,

GENERAL AMERICAN OIL COMPANY OF TEXAS

RE: CASE 5219 APPLICATION OF MIDWEST OIL CORPORATION FOR POOL
CREATION, DISCOVERY ALLOWABLE AND SPECIAL POOL RULES, WOLFCAMP
FORMATION, EDDY COUNTY NEW MEXICO. TENNECO IS 1/2 WORKING INTEREST
OWNER OF THE ACREAGE IN THE N/2 SECTION 33, T17S-R29E. WE SUPPORT
THE APPLICATION FOR DISCOVERY ALLOWABLE. HOWEVER, WE OPPOSE
THE SPECIAL RULES THAT PROVIDE FOR 80 ACRE SPACING. WE BELIEVE
THAT THE ECONOMICS ASSOCIATED WITH THE RECOVERABLE RESERVES
FROM ONLY 80 ACRES COULD BE MARGINAL. IN ADDITION, AN EXISTING
PRESSURE DRAWN DOWN AND BUILT UP TEST CONDUCTED ON THE ENTIRE
SOUTH DEEP UNIT NUMBER 4 INDICATES THAT THIS WELL COULD DRAIN
AN AREA AS LARGE AS 160 ACRES. IN VIEW OF THESE FACTS, TENNACO
REQUESTS THAT TEMPORARY FIELD RULES THAT PROVIDE FOR 160-ACRE
SPACING BE ADOPTED.
