CASE NO. 10337

APPLICATION

NEARBURG PRODUCING COMPANY, by its undersigned attorneys, hereby makes application to the New Mexico Oil Conservation Division for approval of an unorthodox well location, and in support of its application states:

1. Applicant is the operator of the W/2 of Section 15, Township 22 South, Range 27 East, N.M.P.M., Eddy County, New Mexico, and proposes to drill its Forni 15 Well No. 1 at an unorthodox location 2500 feet from the North line and 660 feet from the West line of said Section 15.

2. Applicant seeks an exception to the well location requirements of Division Rule 104 to permit the drilling of the well at the above-described unorthodox location to a depth to adequately test the Strawn and Morrow formations.

3. Approval of this application will afford applicant the opportunity to produce its just share of hydrocarbons underlying this spacing unit and will otherwise be in the best interest of conservation, the prevention of waste and the protection of correlative rights.

WHEREFORE, Applicant respectfully requests that this application be set for hearing before a duly appointed Examiner of the Oil Conservation Division on June 27, 1991, and that after notice and hearing as required by law, the Division enter its order granting this application and providing such other and further relief as is proper.

Respectfully submitted,

CAMPBELL & BLACK, P.A.
