BEFORE EXAMINER MORROW OIL CONSERVATION DIVISION

APAGANE EXHIBIT NO. Z

Apache Corporation, operator, is CASE NO. 10371 objection to Apache's application to drill a gas well at an unorthodox location in Section 12 of Township 22-S, Range 23-E, Eddy County, New Mexico. This application is an amendment to an approved unorthodox drilling location permit approved by NMOCD Order No. R-9487, dated May 8, 1991.

The application has been set for a hearing at the offices of the New Mexico Oil Conservation Division in Santa Fe, New Mexico on August 22, 1991.

The original plan was to re-enter an existing well and drill directionally to an unorthodox bottom hole location. Because of mechanical wellbore problems, we have decided to plug the existing well and drill a straight hole at an unorthodox location very nominally outside the approved target area. The revised surface location is 480' FWL and 2049' FNL of Section 12, T-22-S, R-23-E, Eddy County, New Mexico. Although the concept is essentially unchanged, the revised location requires that this application be set for hearing. We have asked the NMOCD to apply the same penalized acreage factor of 0.49 to the well at the revised location.

If you have no objections to Apache's drilling and producing this unorthodox location, please sign and return one copy of this letter in the enclosed envelope. Should you have any questions regarding this proposal, please call Ceci Leonard at (713) 953-5306.

Sincerely,

leci Leonard

CASE NO. ______ (0371

Apache Corporation, operator, is requesting your waiver of objection to Apache's application to drill a gas well at an unorthodox location in Section 12 of Township 22-S, Range 23-E, Eddy County, New Mexico. This application is an amendment to an approved unorthodox drilling location permit approved by NMOCD Order No. R-9487, dated May 8, 1991.

The application has been set for a hearing at the offices of the New Mexico Oil Conservation Division in Santa Fe, New Mexico on August 22, 1991.

The original plan was to re-enter an existing well and drill directionally to an unorthodox bottom hole location. Because of mechanical wellbore problems, we have decided to plug the existing well and drill a straight hole at an unorthodox location very nominally outside the approved target area. The revised surface location is 480' FWL and 2049' FNL of Section 12, T-22-S, R-23-E, Eddy County, New Mexico. Although the concept is essentially unchanged, the revised location requires that this application be set for hearing. We have asked the NMOCD to apply the same penalized acreage factor of 0.49 to the well at the revised location.

If you have no objections to Apache's drilling and producing this unorthodox location, please sign and return one copy of this letter in the enclosed envelope. Should you have any questions regarding this proposal, please call Ceci Leonard at (713) 953-5306.

Sincerely,

lui Leonard
