Case 10407

Re: In the Matter of the Application of Great Lakes Chemical Corporation For
an Exception to Order No. R-8170, as Amended, For the Establishment of
Allowables for Certain Wells, San Juan County, New Mexico

Dear Mr. LeMay:

Enclosed in triplicate is the Application of Great Lakes Chemical Corporation in the
above-referenced case. Great Lakes Chemical Corporation respectfully requests that this
matter be placed on the docket for the November 21, 1991 Examiner hearings.

Very truly yours,

WILLIAM F. CARR

CASE NO. 10407

APPLICATION

GREAT LAKES CHEMICAL CORPORATION ("Great Lakes"), by its undersigned attorneys, seeks the establishment of allowables for six wells located in the Blanco-Mesaverde Gas Pool in San Juan County, New Mexico and in support thereof states:

1. Great Lakes is the operator of the following wells located in Township 27 North, Range 8 West, San Juan County, New Mexico, which produce from the Mesaverde formation, Blanco-Mesaverde Gas Pool:

Graham #1: Unit A, Section 4
Graham #1A: Unit P, Section 4
Graham #3: Unit J, Section 3
Hammond #5: Unit F, Section 35
Hammond #55: Unit B, Section 26
Hammond #55A: Unit I, Section 26

2. The Blanco-Mesaverde Gas Pool is prorated pursuant to Division Order No. R-8170, as amended, with unit allowables determined by a formula which is based upon dedicated acreage and well deliverability.

3. Although Great Lakes failed to file deliverability tests with the Division for the years 1986 and 1989, each of these wells received full allowable as published in the

Division's proration schedules until this error was discovered in 1990.

4. Great Lakes has since filed new deliverability test data for each well covered by this application.

5. Great Lakes seeks an Order from the Division setting allowables for each of the subject wells based on the acreage dedicated thereto, and upon actual deliverability test data on each well.

6. Granting this application will avoid unreasonable hardship on Great Lakes and will neither cause waste nor impair the correlative rights of any operator in the Blanco-Mesaverde Gas Pool.

WHEREFORE, Great Lakes Chemical Corporation, requests that this application be set for hearing before a duly appointed Examiner of the Oil Conservation Division, on November 21, 1991 and, after notice and hearing as required by law, the Division enter its Order setting allowables for each of the subject wells based on the acreage dedicated thereto and actual deliverability test data on each well.

Respectfully submitted,

CAMPBELL, CARR, BERGE & SHERIDAN, P.A.
