Request to be placed on the August 6, 1992 Examiners Docket.

Phillips Petroleum Company respectfully requests to be placed on the August 6, 1992 Examiners Docket to request unorthodox location approval for the Chem State Well Nos. 8, 9, and 10 in the Tulk (Wolfcamp) and Tulk (Pennsylvanian) Fields.

Well No. 8 is to be located within a fifty foot radius of 1050' FSL & 1450' FEL of Section 4, T-15-S, R-32-E, Lea County, NM.

Well No. 9 is to be located within a fifty foot radius of 2500' FNL & 660' FEL of Section 4, T-15-S, R-32-E, Lea County, NM.

Well No. 10 is to be located with a fifty foot radius of 660' FWL & 1300' FSL of Section 4, T-15-S, R-32-E, Lea County, NM.

Unorthodox locations are being requested due to geological faulting within the area which will offset the drainage area of each well.

Offset leasees are Yates Petroleum Co., Phillips Petroleum Company and unleased land owned by the NM State Land Office.

Re: Second Amended Application
of Phillips Petroleum Company
for Three Unorthodox Oil Well
Location, Tulk-Wolfcamp Pool,
Lea County, New Mexico
NMOCD Case 10523

Dear Mr. LeMay:

On behalf of Phillips Petroleum Company we have
filed the referenced application which is now scheduled
for hearing on August 6, 1992.

Today I was informed that the locations for the
Chem State #8 and the Chem State #9 wells had to be
moved because of existing pipelines and power lines.

While the revised locations move towards acreage
controlled by Phillips Petroleum Company, each is now
more unorthodox than described in the August 6, 1992
docket. It appears that the Division may require that
this case be re-advertised.

If so, we would request the opportunity to present
the case on August 6, 1992, but to have it continued
and re-advertised for the August 20, 1992 docket with
the following corrected locations:

(1) Chem State #8 formerly at 1050 feet FSL &
1450 feet FEL (Unit 0) now to be located 1150 feet FSL
and 1450 feet FEL;

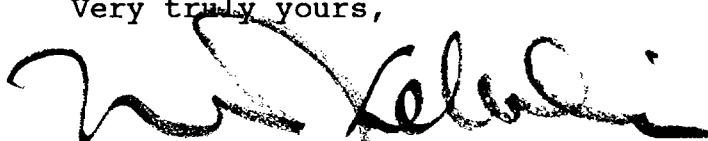

(2) Chem State #9 formerly at 2500 feet FNL & 660
feet FEL, now to be located 2600 feet FNL and 660 feet
FEL

Mr. William J. LeMay
July 28, 1992
Page Two

(3) Chem State #10 location is unchanged.

In the absence of objection, we would request the application be approved after the August 20, 1992 hearing.

Very truly yours,
