Case _____: **Application of Meridian Oil Inc. for compulsory pooling and an unorthodox coal gas well location, San Juan County, New Mexico.** Applicant, in the above-styled cause, seeks an order pooling certain working, royalty and overriding royalty interests in the Basin -Fruitland Coal Gas Pool underlying the E/2 of Section 17, Township 30 North, Range 8 West, forming a standard 320-acre spacing and proration unit for said pool. Said unit is to be dedicated to a well to be drilled at an unorthodox gas well location 640 feet from the East line and 2270 feet from the South line (Unit I) of said Section 17. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of applicant as the operator of the well and a charge for risk involved in drilling said well. Said unit is located approximately 2 miles west of the Navajo Lake State Park Airport.

OF MERIDIAN OIL INC. FOR
COMPULSORY POOLING AND AN
UNORTHODOX COAL GAS WELL LOCATION,
SAN JUAN COUNTY, NEW MEXICO.

CASE NO. _____

A P P L I C A T I O N

Comes now MERIDIAN OIL INC., by its attorneys, Kellahin & Kellahin, and in accordance with Section 70-2-17(c) (1978) applies to the New Mexico Oil Conservation Division for an order pooling certain working, royalty and overriding royalty interests in the Basin Fruitland Coal Gas Pool underlying the E/2 of Section 17, Township 30 North, Range 8 West, NMPM, San Juan County, New Mexico, forming a standard 320-acre spacing and proration unit in the Basin Fruitland Coal Gas Pool. Said unit is to be dedicated to Meridian's Maddox Com #777 Well to be drilled and completed at an unorthodox location 640 feet FEL and 2270 feet FSL (Unit I) of said Section 17. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of applicant as the operator of

the well and a charge for risk involved in drilling said well. In support thereof, Applicant states:

1. Applicant, Meridian Oil Inc., has a working interest ownership in the oil and gas minerals underlying the E/2 of Section 17, T30N, R8W, NMPM, San Juan County, New Mexico.

2. Applicant has proposed to all working interest owners in the subject spacing unit that a well be drilled and located at an unorthodox coal gas well location 640 feet FEL and 2270 feet FSL (Unit I) of Section 17 to a depth sufficient to test the Basin Fruitland Coal Gas Pool, as identified on Exhibit A, attached.

3. All of the working interest owners in the oil & gas minerals underlying the E/2 of Section 17 have been committed to the subject well and this spacing unit, except for UNOCAL Corporation, 1004 North Big Spring Street, Midland, Texas 79701.

4. Included in the proposed spacing unit is a fee lease which does not contain a pooling clause and which is identified as Lease NM-9586 being a portion of the S/2SE/4 of said Section 17.

5. As the current lessee of Lease NM-9586, Meridian Oil Inc. has voluntarily committed the working interest to this well, but because of the absence of a pooling clause in the lease, it is unable to commit the royalty and overriding royalty owners identified on Exhibit B attached.

6. Pursuant to Section 70-2-17(c) NMSA (1978) and in order to obtain its just and equitable share of potential production underlying this spacing unit, Meridian Oil Inc. needs an order of the Division pooling these royalty and overriding royalty owners interests involved in order to protect correlative rights and prevent waste.

7. Pursuant to the Division's notice requirements, Meridian has notified those parties identified in Exhibit B of this application for compulsory pooling of the applicant's request for a hearing of this matter before the Division on the next available Examiner's docket now scheduled for December 17, 1992.

8. The proposed location is unorthodox for the Basin-Fruitland Coal Gas Pool because it is located 640 feet from the East line rather than 790 feet from that

line and is located in the SE/4 rather than the NE/4 of said Section 17. Said location requires an exception to Rule 7 of the Basin Fruitland Coal Gas Pool Rules (Order R-8768).

9. The proposed unorthodox well location is necessary for the following reasons:

(a) Other "off pattern" wells previously have been approved and drilled offsetting the subject spacing unit;

(b) There is an apparent permeability transition in the Basin Fruitland Coal deposits in this immediate area such that the proposed unorthodox location is the optimum location in the spacing unit;

(c) There are topographical features and existing wells in the spacing unit which limit the available locations for the subject well;

(d) The subject location will afford to the owners in the spacing unit a reasonable opportunity to obtain their fair share of recoverable gas reserves attributed to this unit which they may not be able to obtain with a well at a standard location thereby protecting their correlative rights; and

(e) Waste will be prevented.

10. The offset operators and parties entitled to notice of the unorthodox location are set forth on Exhibit C attached hereto.

WHEREFORE, Meridian Oil Inc., as applicant, requests that this application be set for hearing on December 17, 1992 before the Division's duly appointed examiner, and that after notice and hearing as required by law, the Division enter its order pooling the mineral interest described in this spacing unit for the drilling of the subject well at an unorthodox coal gas well location.

RESPECTFULLY SUBMITTED:
