Rusty Waters w/ Louis Sneyfus -

He says they would like to join us but they are not familiar with the geological interpretations of the Morrow in S.E. New Mexico. Also they do not know exactly what their leasehold position is. A lot of their files are still in Denver (DEKALB's office).

I proposed they farmout all of their acreage in the initial proration units (for the Diamond A "27" St. #1 and Turkey Track "15" St. #2) and they farmout $\frac{1}{2}$ of their interest for the balance of the offset acreage wherein they could get the well info for the initial wells to make an

election to join or farmout their
 $\frac{1}{2}$ interest in subsequent wells.

If they were agreeable to the above,
we would be agreeable to giving
them a geological presentation
as to Morrow trends in our
area of exploration and
development.

for Randal -

They are going to have a meeting with their exploitation manager tomorrow (12-31-92) to discuss their trade proposals. He says the land dept. is going to recommend we earn an assignment of the deep rights initially (if productive) and upon abandonment of deep zone we go up the hole to shallow zone, we earn if productive.

Dear Paul:

This will confirm our conversation today about the proposed well known as the Diamond A "27" State # 1. We have agreed to do what Heyco does in regard to this well. That is, if Heyco participates, we will participate. If Heyco farms out, we will farm out.

I have been advised by you and Dave Percy of Heyco that you will send Dave logs on your well presently drilling in section 35 as soon as those logs are available. Dave has agreed to call me as soon as he has reached a determination about the proposed well after examining the logs from the well in section 35. You have asked that any information we gain from the logs about the well in section be kept confidential. We agree to do this. If you fail to hear from us within 4 or 5 days following the receipt of the logs by Dave Percy, I would appreciate your calling me at (505) 242-2050.

Yours truly,

Harvey E. Yates Jr.

Gentlemen:

Regarding the captioned wells, enclosed for your consideration is a copy of Mewbourne's AFE for each of the wells. Said AFE's are furnished you in the event you desire to join Mewbourne in drilling the above wells in lieu of a farmout agreement. We would still like to work a trade with Dreyfus in lieu of the Dreyfus interest being forced pooled. Please call me at your convenience.

Sincerely,

Gentlemen:

Reference is made to Mewbourne's previous correspondence wherein Mewbourne proposed drilling Morrow test wells under the captioned land among other lands. In the event Marathon Oil Company does not have a copy of Mewbourne's AFE for the above proposed wells, enclosed for Marathon's consideration is a copy of Mewbourne's AFE for each of the above wells.

As Mewbourne would like to drill the above Morrow test wells at the earliest possible dates, Mewbourne respectfully requests a decision from Marathon either to join Mewbourne in drilling the above wells or to farmout their interest to Mewbourne as most recently requested in Mewbourne's letter dated December 1, 1992 regarding Marathon's interest in the above lands.

In the event Marathon elects to join Mewbourne in one or both of the above, proposed wells, please advise and I will forward Marathon an Operating Agreement for the respective wells for Marathon's consideration and execution.

Sincerely,

Mewbourne Oil Company
