Re: Application of Enron Oil & Gas Company for Compulsory Pooling and an  
Unorthodox Gas Well Location, Eddy County, New Mexico

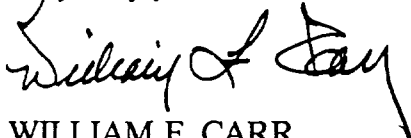

Dear Mr. and Mrs. Brigham:

This letter is to advise you that Enron Oil & Gas Company has filed the enclosed Application with the New Mexico Oil Conservation Division seeking the force pooling of certain mineral interests in all formations developed on 320-acre spacing from the surface to the base of the Morrow formation, in and under the S/2 Section 35, Township 17 South, Range 30 East, N.M.P.M., Eddy County, New Mexico. Enron Oil & Gas Company proposes to dedicate the referenced pooled unit to its Cedar Lake 35 Federal Com No. 2 Well to be drilled at an unorthodox location 990 feet from the South and East lines of Section 35, to a depth of approximately 11,600 feet, more or less, to test all formations to the base of the Morrow formation.

This application has been set for hearing before a Division Examiner on September 23, 1993. You are not required to attend this hearing, but as an owner of an interest that may be subject to pooling, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

WILLIAM F. CARR

Re: Application of Enron Oil & Gas Company for Compulsory Pooling and an  
Unorthodox Gas Well Location, Eddy County, New Mexico

Gentlemen:

This letter is to advise you that Enron Oil & Gas Company has filed the enclosed Application with the New Mexico Oil Conservation Division seeking the force pooling of certain mineral interests in all formations developed on 320-acre spacing from the surface to the base of the Morrow formation, in and under the S/2 Section 35, Township 17 South, Range 30 East, N.M.P.M., Eddy County, New Mexico. Enron Oil & Gas Company proposes to dedicate the referenced pooled unit to its Cedar Lake 35 Federal Com No. 2 Well to be drilled at an unorthodox location 990 feet from the South and East lines of Section 35, to a depth of approximately 11,600 feet, more or less, to test all formations to the base of the Morrow formation.

This application has been set for hearing before a Division Examiner on September 23, 1993. You are not required to attend this hearing, but as an owner of an interest that may be subject to pooling, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

WILLIAM F. CARR
