LEASE #:	1358-002	LEASE NAME:	MCMILLAN #2

ORIGINATED BY:	DOUG KEATHLEY	FIELD:	Wildcat
COUNTY:	LEA	STATE:	New Mexico
LEGAL LOCATION:	1980' FSL & 1980' FWL, Sec. 29-T18S-R37E		
COMMENCEMENT DATE:	02/15/1994	ESTIMATED COMPLETION DATE:	03/15/1994

WORK TO BE PERFORMED:

Drill & Complete Wildcat San Andres Well

OBJECTIVES:

This is a wildcat San Andres oil well. Economics are based on making a well similar to wells made in the Hobbs field, several miles to the east. If a comparable San Andres well is made, conservative economics indicate an IRR of 91%, a payout of 17 months and a PI of 4.05:1.

Since this well is a wildcat to the San Andres, we do have a secondary target of the Queen/Penrose section as completed in the Maralo State, Howard State and McMillan. The performance of these wells indicates that a realistic downside expectation would be to make a well that will have an IRR of 2% with a PI of 1.09:1.
