Re: Fairchild East 18 #1 Well;
660' FNL and 660' FWL of
Section 18, T-19-S, R-26-E,
Eddy County, new Mexico

Gentlemen:

Nearburg Exploration Company (NEC) owns a 59.9238% leasehold interest in the captioned N/2 Section 18 unit. NEC proposes the drilling of the captioned well at the location set forth above to a depth of 9,500' sufficient to test the Morrow formation. The well will be placed in the Cemetery Federal Field if completed as productive which requires a 320-acre spacing unit.

Pursuant to this proposal, enclosed herewith please find Nearburg Producing Company's Authority for Expenditure estimating the cost of the proposed operation, which to casing point is \$418,410 and to completion is \$683,345. Also enclosed please find a proposed Operating Agreement to be used if you elect to participate for your proportionate working interest.

Should you desire not to participate in the proposed operation, NEC will accept a farmout or lease covering the Estates' interests, with the Estates reserving a 1/4 royalty, inclusive of all burdens.

If you desire to sell your interest rather than participate, lease or farmout, NEC will consider this option at a reasonable acquisition price. Please forward to us your sales offer if this is your preference.

We appreciate your review of our well proposal and invite you to participate with us in the drilling of the Fairchild East 18 #1 well.

Thank you for your cooperation.

Very truly yours,

Bob Shelton
