RE: Surface Commingling Permit Application
Texaco Operated State "P" Lease
Lovington Grayburg San Andres and
Lovington Abo Pools
Lea County, New Mexico

Gentlemen:

Texaco requests approval to surface commingle produced hydrocarbons from the Lovington Grayburg San Andres and Lovington Abo pools on the subject Lease. This approval is being requested due to a requirement imposed from the Oil Conservation Division.

The Grayburg San Andres and Abo completions on the subject Lease have diverse Working Interest Ownership due to some partners going non-consent in the Grayburg San Andres completion on Well No. 13. Well No. 13, the only Grayburg San Andres completion on the Lease, was recently completed at a rate of 35 BOPD and 40 BWPD. Due to this low rate, it is not economical to build a new battery and should be commingled with the Abo production at the existing battery.

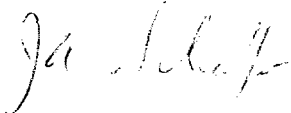

Attached is a plat showing the location of the wells and battery on the State "P" Lease. Also attached is a schematic of the Lease battery where monthly tests will be accurately measured on a per well basis. Total monthly production will then be allocated to each well utilizing the subtraction test method.

Please sign and return one copy of your approval to: Texaco Producing Inc., Attention: Laura Skinner, P. O. Box 728, Hobbs, New Mexico 88240. If you have any questions regarding this

October 10, 1988

request, please contact Mr. Dennis Wehmeyer at the Hobbs District Office.

Yours very truly,

J. A. Schaffer
District Operations Manager

TO WORKING INTEREST OWNERS

RE: SURFACE COMMINGLING PERMIT APPLICATION
STATE 'P' LEASE
LEA COUNTY, NEW MEXICO

Gentlemen:

You recently received copies of Texaco's letter ballot to surface commingle the Lovington Grayburg San Andres and Lovington Abo pools on the State 'P' Lease. This is to advise that sufficient approval has been received for this project and Texaco shall proceed as planned.

Yours very truly,

J. A. Schaffer
District Operations Manager
