Re: Shipp No. 1 Well, W $\frac{1}{2}$ NE $\frac{1}{4}$ Section 11, T-17-S, R-37-E,
Lea County, New Mexico; Proposed Bottom Hole Location:
990' FNL and 2310' FEL

Charles B. Gillespie, Jr. has applied to the New Mexico Oil Conservation Division for approval of directional drilling and an unorthodox bottom hole location for the above well as described in the attached Application. This hearing will be held on Wednesday, December 7, 1988 at 8:15 a.m. in Santa Fe, New Mexico. The offices of the Oil Conservation Division are located on the second floor of the State Land Office Building, 310 Old Santa Fe Trail, in Santa Fe. Failure to appear at that time will foreclose any protest by you.

If you have no objection to this proposal, please sign the attached waiver and mail to the undersigned. A self-addressed, stamped envelope is enclosed for your convenience.

Very truly yours,

CHARLES B. GILLESPIE, JR.

BEFORE THE NEW MEXICO
OIL CONSERVATION DIVISION

APPLICATION OF CHARLES B. GILLESPIE,
JR. FOR APPROVAL OF DIRECTIONAL
DRILLING AND AN UNORTHODOX
SUBSURFACE LOCATION, LEA COUNTY, NEW
MEXICO.

Case No. _____

APPLICATION

CHARLES B. GILLESPIE, JR. hereby applies to the New Mexico Oil Conservation Division for approval of directional drilling and an unorthodox subsurface location in the Humble City Strawn Oil Pool, and in support thereof would show:

1. Applicant is the operator of the Shipp No. 1 Well, located in the W½NE¼ of Section 11, Township 17 South, Range 37 East, N.M.P.M., Lea County, New Mexico.

2. Applicant, with the consent of all working interest owners, drilled the Shipp No. 1 Well to a depth of 11,880 feet, with a W½NE¼ Section 11 proration unit, at a surface location 550 feet from the North line and 2,310 feet from the East line of Section 11.

3. Applicant proposes to plug back its Shipp No. 1 Well to approximately 8,500 feet, at which point Applicant will commence directionally drilling the subject well to penetrate the top of the Strawn Formation at a true vertical depth of approximately 11,450 feet, to be within a 75 foot radius of an unorthodox subsurface target which will be 990 feet from the North line and 2,310 feet from the East line of Section 11.

4. Applicant proposes that the proration and spacing unit for the subject well will remain as the W₁NE₁ of Section 11.

5. Applicant's well will be an attempt to obtain production from the Humble City Strawn Oil Pool, and requires an exception to the pool rules which require wells to be located within 150 feet of the center of a quarter-quarter section.

6. In accordance with Division Rule 111, Applicant seeks approval to directionally drill the subject well based upon geologic and economic reasons.

7. Notice is being provided to all parties listed on Exhibit A attached hereto.

8. Applicant requests that this application be set for hearing on December 7, 1988.
