IN THE MATTER OF THE APPLICATION OF
NEARBURG PRODUCING COMPANY FOR AN
UNORTHODOX WELL LOCATION,
EDDY COUNTY, NEW MEXICO.

CASE NO. 9568

APPLICATION

COMES NOW NEARBURG PRODUCING COMPANY, by and through its undersigned attorneys, hereby makes application to the Oil Conservation Division for an order approving an unorthodox well location, and in support thereof would show the Division:

1. Applicant is the operator of the N/2 of Section 26, Township 19 South, Range 25 East, N.M.P.M., Eddy County, New Mexico and proposes to drill its Morris 26 E No. 1 Well at a point 1980 feet from the North line and 990 feet from the West line of said Section 26.

2. Applicant seeks an exception to the well location requirements of Oil Conservation Division Rule 104 to permit the drilling of the well at the above described unorthodox location to a depth sufficient to adequately test the Morrow formation, Boyd Morrow Pool.

3. A standard 320-acre proration unit comprised of Section 26 should be dedicated to the well.

4. That approval of this application will afford applicant the opportunity to produce its just and equitable share of the gas in the Morrow formation and will otherwise be in the best interest of conservation, the prevention of waste and the protection of correlative rights.

WHEREFORE, Applicant prays that this application be set for hearing before a duly appointed Examiner of the Oil Conservation Division on January 4, 1989, and that after notice and hearing as required by law, the Division enter its order granting this application and providing such other and further relief as is proper in the premises.

Respectfully submitted,

CAMPBELL & BLACK, P.A.
