Re: Application of Parker & Parsley Petroleum Company for Downhole Commingling, Pardue Farms #27 Well No. 4 Eddy County, New Mexico

Dear Mr. LeMay:

On behalf of Parker & Parsley Petroleum Company, please find enclosed our Application for approval to downhole commingle production from the South Culebra Bone Springs and the Undesignated Brushy (Delaware) Canyon in the Pardue Farms #27 Well No. 4.

We would appreciate this application being set for hearing at the next available Examiner's docket now scheduled for April 12, 1989.

By copy of this letter including a copy of the application, we are sending by certified mail, return-receipt requested notification of this Application and hearing date to all offsetting operators. They are advised of their right to appear at the hearing either in support of or in opposition to the Application.

Ver ruly yours, Thomas Kellahin

WTK/rs Encl.

cc: Randy Johnson - Parker & Parsley Petroleum Company

Certified Mail: Parties listed on Exhibit C of Application.

IN THE MATTER OF THE APPLICATION OF PARKER & PARSLEY PETROLEUM COMPANY FOR A DOWNHOLE COMMINGLING, EDDY COUNTY, NEW MEXICO OIL CONSERVATION DIVISION

Case No. 2647

APPLICATION

COMES NOW, PARKER & PARSLEY PETROLEUM COMPANY, by and through its attorneys, Kellahin, Kellahin & Aubrey, and applies to the New Mexico Oil Conservation Division for an order approving the downhole commingling of production from the undesignated Brushy (Delaware) Canyon formation and the South Culebra Bluff Bone Springs Oil Pool in its Pardue Farms #27 Well No. 4 located 660' FSL and 660' FEL (Unit P) of Section 27, T23S, R28E, Eddy County, New Mexico and in support thereof would show:

1. Applicant is the operator of the Pardue Farms #27 Well No. 4 located 660' FSL and 660' FEL of Section 27, T23S, R28E, NMPN, Eddy County, New Mexico as set forth on the plat of the area attached hereto as Exhibit A. 2. The 40 acres consisting of the SE/4 SE/4 of Section 27 is dedicated to the undesignated Brushy (Delaware) Canyon production and 80 acres consisting of the S/2 SE/4 of said Section 27 is dedicated to the South Culebra Bluff Bone Springs Pool production.

3. Applicant proposes that the commingled production be allocated to the well based upon the allocation formula setforth on Exhibit B attached hereto.

4. Applicant has notified all of the offsetting operators shown on Exhibit C of this application and its request that this matter be heard at the Examiner's hearing now scheduled for April 12, 1989.

5. The subject well is only capable of relatively low rates of production from the South Culebra Bone Springs pool.

6. While the well is capable of oil production from the undesignated Brushy (Delaware) Canyon formation in excess of 10 barrels of oil per day it requires artificial lift of that production.

7. The approval to downhole commingle production will allow the operator the opportunity to produce the remaining reserves in the South Culebra Bone Springs formation thereby avoiding waste of oil from a formation which will otherwise be abandoned.

WHEREFORE, applicant requests that this matter be set for hearing and that after notice and hearing, the application be granted as requested.

Respectfully submitted,

By:

W. Thomas Kellahin Kellahin, Kellahin & Aubrey Post Office Box 2265 Santa Fe, New Mexico 87504
