NE/4SE/4 Sec. 21, T18S, R35E

*Case No. 9665*  
Gentlemen:

Georgetown Exploration, Inc. does hereby consent to participate in the drilling of a 4,000' Queen test in the first test well to be drilling in the SE/4 of Sec. 21, T18S, R35E. However, Georgetown does not believe it is fair or in the best interest of all parties owning an interest in the SE/4 of Sec. 21, T18S, R35E to be forced to participate in two wells located adjacent to each other, at the same time. Therefore it is Georgetown's request that within thirty (30) days from completion of your proposed test well or plugging of your first test well, that Georgetown will have the right to either participate or go non-consent on your second test well pursuant to the risk factor penalty set forth in the compulsory pooling order for the proposed first test well.

Very truly yours,

Gentlemen:

Attached for your review is a copy of New Mexico Oil Conservation Division Order No. R-8938 issued in connection with Case No. 9665 before the New Mexico Oil Conservation Division.

The subject order pools all working and mineral interests under the NE/4 SE/4 Section 21, T18S-R35E, N.M.P.M., Lea County, New Mexico as to those depths from the surface of the earth to the base of the Reeves-Queen Pool or to a depth of 4600 feet, whichever is deeper. Bass has the right to drill the subject well at a standard oil well location 1980 feet from the South line and 780 feet from the East line of Section 21.

The terms of the order provide for a 200% penalty as a reasonable charge for the risk involved in the drilling of the well. Additionally, the order stipulates that \$5000.00 per month while drilling and \$500.00 per month while producing will be the reasonable charges for supervision (combined fixed rates).
