OIL CONSERVATION DIVISION CASE NO. 9828

APPLICATION

Applicant states:

1. By Orders R-8951 and R-8951-A the Division, subject to penalty, granted applicant's application for unorthodox well location at location of 825 FNL and 1650 FEL of Section 7, Township 22 South, Range 24 East, NMPM, Eddy County, New Mexico.
2. Since the issuance of Orders R-8951 and R-8951-A, Applicant, due to other drilling activities in the area, redefined and re-evaluated its geological position.
3. Applicant's new proposed drilling location as a result of such geological re-evaluation is at a location of 660 FNL and 660 FWL of said Section 7, which is not in conformity with the Indian Basin Upper Pennsylvanian Gas Pool Rules and the Indian Basin Morrow Gas Pool Rules.
4. Applicant proposes to change only those portions of Order Nos. R-8951 and R-8951-A which are affected by reason of the changed location.
5. Approval of this application would be in the best interests of conservation of oil and gas and would no impair the correlative rights of offsetting operators and owners.
6. Copies of Division Orders R-8951 and R-8951-A are attached hereto as Exhibit A.

WHEREFORE Applicant requests that after Notice and Hearing:

1. The Division approve the application in its entirety.
2. The Division grant such other and further relief as the Division deems proper.

Respectfully submitted,
