Sec. 21, T-23-S, R-26-E Eddy County, New Mexico SFEOP's Sheep Dip Prospect Your Dark Canyon Prospect #5661

Gentlemen:

Pursuant to that Letter Agreement of February 28, 1990, and the verbal advisement within the election period, please accept this letter as Santa Fe Energy Operating Partners L.P.'s election to participate in the referenced Morrow test. In this regard, enclosed please find one copy of your Estimated Drilling and Completion Well Cost (AFE) which has been executed on behalf of Santa Fe.

This joinder is subject to approval of the formal Joint Operating Agreement which you advise will be forwarded as soon as the WI Owners' interests are determined. It would be our understanding that this O/A shall cover all depths from the surface to 100' below the Total Depth to be drilled in this well, or the base of the Morrow Formation, whichever is lesser.

Should you require anything additional in this regard, feel free to call.

Sincerely yours,

SANTA FE ENERGY OPERATING PARTNERS, L.P. By: Santa Fe Pacific Exploration Company,

1980' FNL & 660' FWL
Sec. 21, T-23-S, R-26-E
Eddy County, New Mexico
Santa Fe's Sheep Dip Prospect

Gentlemen:

Pursuant to the recent conversations, please be advised that Santa Fe Energy Operating Partners, L.P. (Santa Fe) will agree to a trade with Pacific under the following general terms:

- 1. Five (5) days from execution of this Letter representatives from Santa Fe will have access to review in Pacific's office, Pacific's geological and geophysical data supporting the proposed 12,000' Morrow test.
- 2. Within twenty-one (21) days from the date of the meeting noted in Paragraph 1 above, but in any event prior to Pacific's scheduled April 4, 1990 Compulsory Pooling Hearing, Santa Fe will elect to proceed with one of the following alternative trades:
 - A. Participate in the Proposed Morrow Test as to Santa Fe's proportionate interest in the W/2 of Section 21, T-23-S, R-26-E, Eddy County, New Mexico, subject to a mutually acceptable 1982 AAPL Model Form Operating Agreement.

OR

B. Farmout (F/O) its Leasehold Interest under the following general terms:

Permian Basin District 500 W. Illinois Suite 500 Midland, Texas 79701 915/687-3551 Page 2 Pacific Enterprises Oil Company (USA) February 28, 1990

- (1) 120 day term from the execution of the Formal Agreement to begin actual drilling.
- (2) Required depth and location 12,000' or to a depth sufficient to penetrate and test the Morrow Formation, whichever, is the lesser, at the legal location stated above.
- (3) Produce to earn 100% of Farmor's rights in and to said test well's drilling unit, limited to rights from the surface down to 100' below total depth, at a 75% net revenue interest.
- (4) <u>Conversion Option</u> At payout of said test well, Farmor shall have the option to convert its overriding royalty interest to a 25% working interest.
- (5) Unit Basis Farmor agrees to allow Farmee the right to pool and unitize its interest into a 320 acre drilling unit consisting of the W/2 of said Section 21 for Strawn/Atoka/Morrow production, with Farmor's overriding royalty interest and conversion working interest being proportionately reduced to such unit.
- (6) Additional Development If said test well does not earn the NE/4SW/4 of said Section 21, then Farmee shall have the option to drill additional wells pursuant to a 120 day continuous drilling program, earning in the same manner and fashion as said test well, with the required depth for such additional wells being the same as said test well or to the deepest productive horizon encountered in any preceding well, whichever is lesser.
- (7) Subject to a mutually agreeable formal Farmout Agreement.

W/2 Section 21, T-23-S, R-26-E

Federal Comm #21-1 Well

Gentlemen:

Reference is made to our January 26, 1990 letter and attached Authority For Expenditure thereto regarding our proposal to drill a 12,000' Morrow test well 1980' FNL and 660' FWL of Section 21, T-23-E, R-26-E, Eddy County, New Mexico, with estimated drilling and completion costs being \$454,000.00 and \$298,000.00 respectively, with said test well's drilling unit (Strawn/Atoka/Morrow) being a federal communitized unit covering the W/2 of said Section 21.

Please be advised that due to a leasehold owner within the SW/4 of said Section 21, Pacific will be required to apply for Compulsory Force Pooling of the W/2 of said Section 21 for the drilling of said test well.

Therefore, we respectfully request that you advise of your election within thirty (30) days from the date of this letter.

If you have any questions, please contact the undersigned.

Very truly yours,

RE: Dark Canyon Prospect #5661 Eddy County, New Mexico

> NE/4SW/4 Section 21, T-23-S, R-26-E USA Lease #NM-81907

Proposed Federal Comm. #21-1 Well

Gentlemen:

Pacific Enterprises Oil Company (USA) hereby proposes to drill a 12,000' Morrow test well 1980' FNL and 660' FWL of Section 21, T-23-S, R-26-E, Eddy County, New Mexico in the near future, with estimated drilling and completion well costs being \$454,000.00 and \$298,000.00 respectively (see attached AFE), with said test well's drilling unit (Strawn/Atoka/Morrow) being a Federal Communitized Unit covering the W/2 of said Section 21.

Pacific is the owner of an undivided 25% leasehold interest under the NW/4 of said Section 21 and according to our information, you are the 100% (87.5% NRI) leasehold owner of the NE/4SW/4 of said Section 21.

Therefore, we respectfully request your advisement as to your election to either (1) participate in this proposed operation through the formation of a Working Interest Unit covering the W/2 of said Section 21, subject to a mutually acceptable Joint Operating Agreement, or (2) farmout your interest in the NE/4SW/4 of said Section 21 to Pacific on the following terms:

- 1. 120 day term (actual drilling).
- 2. Required depth and location 12,000' or to a depth sufficient to penetrate and test the Morrow Formation, whichever, is the lesser, at the legal location stated above.
- 3. Produce to earn 100% of Farmor's rights in and to said test well's drilling unit, limited to rights from the surface down to 100' below total depth, at a 80% net revenue interest.

Santa Fe Energy Operating Partners LP January 26, 1990 Page 2

- 4. <u>Conversion Option</u> At payout of said test well, Farmor shall have the option to convert its overriding royalty interest to a 25% working interest.
- 5. <u>Unit Basis</u> Farmor agrees to allow Farmee the right to pool and unitize its interest into a 320 acre drilling unit consisting of the W/2 of said Section 21 for Strawn/Atoka/Morrow production, with Farmor's overriding royalty interest and conversion working interest being proportionately reduced to such unit.
- 6. Additional Development If said test well does not earn the NE/4SW/4 of said Section 21, then Farmee shall have the option to drill additional wells pursuant to a 180 day continuous drilling program, earning in the same manner and fashion as said test well, with the required depth for such additional wells being the same as said test well or to the deepest productive horizon encountered in any preceeding well, whichever is lesser.

If you have any questions or need any additional information, please contact the undersigned; your prompt attention is appreciated.

Very truly yours,
