Manzano will continue to offer assistance to any party that has not yet decided what they desire to do. Once again, our geological files and staff are available to answer any questions you may have. We desire to have every election no later than July 6, 1990. That would allow Manzano enough but not an excess amount of time to acquire a written agreement by the time we leave for Santa Fe on July 10, 1990.

We look forward to hearing from you in the near future.

Very truly yours,
