Compulsory Pooling Applications by Mesa Operating  
Limited Partnership, San Juan County, New Mexico  
Cases 9982, 9983, 9984, 9985, 9986, 9987, 9988,  
9989, 9990, 9991, 9992

---

Amoco Production Company, as an owner of interests in the lands affected by the above referenced cases, hereby requests to be made a party of record and to have this letter entered into the record in each of these cases.

The NMOCD has established, in numerous compulsory pooling cases, the appropriate charge for risk involved in drilling wells in the Basin Fruitland Coal Pool to be 156% of well costs. This is primarily based on evidence presented to the NMOCD that the coals are present throughout the Basin and have been developed extensively with production established in virtually all wells.

It is Amoco's opinion that in these compulsory pooling matters, the 156% charge for risk is appropriate and should be established in each of the above referenced cases.

Amoco Production Company, as a party of record in these cases, reserves the right to challenge these matters in the future.

Sincerely,

  
J.W. Hawkins
