STATEMENT OF CASE

APPLICANT

(please make a concise statement of what is being sought with this application and the reasons therefore.)

TXO Production Corp. proposes to drill another Delaware Sand development well at an unorthodox well location in the NE/4SE/4 of Section 18. Section 18 and the W/2 of Section 17 is all the same federal lease. TXO has unsuccessfully tried to develop a 40-acre stepout well in its Yates Federal No. 6 well in NE/4SE/4 to offset other production on the lease. The unorthodox location is necessary in order to minimize the geologic risk and to recover oil that might not otherwise be recovered thereby preventing waste.

All working interest and royalty ownership is common in the spacing unit and each adjoining spacing unit towards which the well encroaches.

OPPOSITION OR OTHER PARTY

(Please make a concise statement of the basis for opposing this application or otherwise state the position of the party filing this statement)

PROPOSED EVIDENCE

APPLICANT

WITNESSES (name and expertise)	EST. TIME	EXHIBITS
