Attn: Ms. Bonnie Husband

RE: Injection Pressure Increases
Central Corbin Queen Unit Wells No. 201, 205, 209
Lea County, New Mexico

Dear Ms. Husband:

Reference is made to your request to the New Mexico Oil Conservation Division (Division) received January 6, 2003, to increase the surface injection pressure on the subject wells. This request is based on step rate tests conducted in early December 2002. Results of these tests have been reviewed and we feel an increase in injection pressure on these wells is justified at this time.

On each of the following wells, you are hereby authorized to inject water at pressures up to the following maximum surface tubing pressure.

Well and Location	Maximum Surface Injection Pressure
Central Corbin Queen Unit No. 201 API:30-025-29325	1720 PSIG
Central Corbin Queen Unit No. 205 API:30-025-29453	2100 PSIG
Central Corbin Queen Unit No. 209 API:30-025-29777	1775 PSIG
These wells are located in Section 4, Township 18 South, Range 33 East, Lea County, New Mexico.	

The Division Director may rescind these injection pressure increases if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

Lori Wrotenbery
Director

Statutory Unitization for the Central
Corbin Queen Unit, Lea County,
New Mexico
- (2) Application of OXY USA for Authority
to Institute a waterflood project for
the Central Corbin Queen Unit, Lea County,
New Mexico.

Dear Mr. LeMay:

On behalf of OXY USA Inc, we would appreciate your setting the enclosed two Applications for a public hearing on the Division's Examiner docket now scheduled for August 22, 1990.

By copy of this letter to all parties to be subject to any orders issued in these cases, we are notifying them by certified mail-return receipt, that they have the right to appear at the hearing, to make a statement to the Division, to present evidence and cross-examine witnesses either in support of or in opposition to the Application. Those parties are directed to contact the Division or the Applicant's attorney to determine what additional rights they may have. In addition, they are advised that the entry of a statutory unitization order will affect their rights to share in the production from the subject unit.

Any party desiring to participate in the hearing should file a prehearing statement with the Division and the applicant's attorney by 4:00 P.M. on August 17, 1990.

Sincerely,

W. Thomas Kellahin

Attention: Richard Foppiano

**RE: *Injection Pressure Increase, Central Corbin-Queen Unit,
Lea County, New Mexico***

Dear Mr. Foppiano:

Reference is made to your request dated November 21, 1993 to increase the surface injection pressure on three wells in your Central Corbin-Queen Unit. This request is based on step rate tests conducted on these wells between September 29 and October 2, 1993. The results of the tests have been reviewed by my staff and we feel an increase in injection pressure on these wells is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following wells:

Well and Location	Maximum Injection Surface Pressure
CCQU Well No. 201 Unit O, Section 4, Township 18 South, Range 33 East	1450 PSIG
CCQU Well No. 205 Unit K, Section 4, Township 18 South, Range 33 East	1530 PSIG
CCQU Well No. 214 Unit G, Section 4, Township 18 South, Range 33 East	1510 PSIG
All wells located in Lea County, New Mexico.	

Injection Pressure Increase

OXY USA, Inc.

December 6, 1993

Page 2

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

A handwritten signature in black ink, appearing to read "William J. LeMay". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
