

APPLICATION FOR AUTHORIZATION TO INJECT

I. Purpose: ☐ Secondary Recovery ☐ Pressure Maintenance ☒ Disposal ☐ Storage
Application qualifies for administrative approval? ☐ yes ☒ no

II. Operator: Texaco Inc.

Address: P. O. Box 730, Hobbs, NM 88240

Contact party: J. A. Head Phone: (505) 393-7191

III. Well data: Complete the data required on the reverse side of this form for each well proposed for injection. Additional sheets may be attached if necessary.

IV. Is this an expansion of an existing project? ☐ yes ☒ no
If yes, give the Division order number authorizing the project _____.

V. Attach a map that identifies all wells and leases within two miles of any proposed injection well with a one-half mile radius circle drawn around each proposed injection well. This circle identifies the well's area of review. ATTACHED

VI. Attach a tabulation of data on all wells of public record within the area of review which penetrate the proposed injection zone. Such data shall include a description of each well's type, construction, date drilled, location, depth, record of completion, and a schematic of any plugged well illustrating all plugging detail. ATTACHED

VII. Attach data on the proposed operation, including:

1. Proposed average and maximum daily rate and volume of fluids to be injected;
2. Whether the system is open or closed;
3. Proposed average and maximum injection pressure;
4. Sources and an appropriate analysis of injection fluid and compatibility with the receiving formation if other than reinjected produced water; and
5. If injection is for disposal purposes into a zone not productive of oil or gas at or within one mile of the proposed well, attach a chemical analysis of the disposal zone formation water (may be measured or inferred from existing literature, studies, nearby wells, etc.). ATTACHED

VIII. Attach appropriate geological data on the injection zone including appropriate lithologic detail, geological name, thickness, and depth. Give the geologic name, and depth to bottom of all underground sources of drinking water (aquifers containing waters with total dissolved solids concentrations of 10,000 mg/l or less) overlying the proposed injection zone as well as any such source known to be immediately underlying the injection interval. ATTACHED

IX. Describe the proposed stimulation program, if any. ATTACHED

X. Attach appropriate logging and test data on the well. (If well logs have been filed with the Division they need not be resubmitted.) ATTACHED

XI. Attach a chemical analysis of fresh water from two or more fresh water wells (if available and producing) within one mile of any injection or disposal well showing location of wells and dates samples were taken. ATTACHED

XII. Applicants for disposal wells must make an affirmative statement that they have examined available geologic and engineering data and find no evidence of open faults or any other hydrologic connection between the disposal zone and any underground source of drinking water. ATTACHED

XIII. Applicants must complete the "Proof of Notice" section on the reverse side of this form.

IV. Certification

I hereby certify that the information submitted with this application is true and correct to the best of my knowledge and belief.

Name: J. A. HEAD Title: AREA MANAGER

Signature:  Date: AUGUST 31, 1990

If the information required under Sections VI, VIII, X, and XI above has been previously submitted, it need not be duplicated and resubmitted. Please show the date and circumstance of the earlier submittal.

III. WELL DATA

A. The following well data must be submitted for each injection well covered by this application. The data must be both in tabular and schematic form and shall include:

- (1) Lease name; Well No.; location by Section, Township, and Range; and footage location within the section.
- (2) Each casing string used with its size, setting depth, sacks of cement used, hole size, top of cement, and how such top was determined.
- (3) A description of the tubing to be used including its size, lining material, and setting depth.
- (4) The name, model, and setting depth of the packer used or a description of any other seal system or assembly used.

Division District offices have supplies of Well Data Sheets which may be used or which may be used as models for this purpose. Applicants for several identical wells may submit a "typical data sheet" rather than submitting the data for each well.

B. The following must be submitted for each injection well covered by this application. All items must be addressed for the initial well. Responses for additional wells need be shown only when different. Information shown on schematics need not be repeated.

- (1) The name of the injection formation and, if applicable, the field or pool name.
- (2) The injection interval and whether it is perforated or open-hole.
- (3) State if the well was drilled for injection or, if not, the original purpose of the well.
- (4) Give the depths of any other perforated intervals and detail on the sacks of cement or bridge plugs used to seal off such perforations.
- (5) Give the depth to and name of the next higher and next lower oil or gas zone in the area of the well, if any.

XIV. PROOF OF NOTICE

All applicants must furnish proof that a copy of the application has been furnished, by certified or registered mail, to the owner of the surface of the land on which the well is to be located and to each leasehold operator within one-half mile of the well location.

Where an application is subject to administrative approval, a proof of publication must be submitted. Such proof shall consist of a copy of the legal advertisement which was published in the county in which the well is located. The contents of such advertisement must include:

- (1) The name, address, phone number, and contact party for the applicant;
- (2) the intended purpose of the injection well; with the exact location of single wells or the section, township, and range location of multiple wells;
- (3) the formation name and depth with expected maximum injection rates and pressures; and
- (4) a notation that interested parties must file objections or requests for hearing with the Oil Conservation Division, P. O. Box 2088, Santa Fe, New Mexico 87501 within 15 days.

NO ACTION WILL BE TAKEN ON THE APPLICATION UNTIL PROPER PROOF OF NOTICE HAS BEEN SUBMITTED.

NOTICE: Surface owners or offset operators must file any objections or requests for hearing of administrative applications within 15 days from the date this application was mailed to them.

- PART VII.
1. The average injection rate will be 10,000 BWPD with a maximum injection rate of 14,000 BWPD.
 2. The system will be closed.
 3. The average injection pressure will be 600 psi with the maximum injection pressure of 1400 psi.
 4. The source of the injected water is the Moore Devonian and Moore Permo Penn.
 5. Not applicable, as Devonian water will be reinjected into the Devonian.

PART VIII. Injection is proposed into the Devonian at 10,550-10,800'. The proposed injection zone is correlative to the injection zone in Texaco's Moore SWD well located 1/4 mile north of the proposed SWD well. The lithology of the Devonian is a fractured dolomite. The Devonian is in excess of 160' thick in BO #2.

The Ogallala is the only source of drinking water in the area. The base of the Ogallala is at approximately 120' according to maps on file with the NMOCD in Hobbs. There are no other known sources of drinking water above or below the proposed injection zone.

PART IX. The injection interval 10,550-10,800 will be acidized with 5,000-10,000 gallons of HCL acid.

PART XII. Texaco Inc. has examined available geologic and engineering data and found no evidence of open faults or any other hydrologic connection between the disposal zone and any underground source of drinking water.

Re: Application of Texaco, Inc. for Salt Water Disposal, Lea County, New Mexico.

Gentlemen:

This letter is to advise you that Texaco, Inc. has filed an application with the New Mexico Oil Conservation Division seeking authority to dispose of produced salt water by injection into the Devonian formation, Moore Devonian Pool and Moore Devonian Permo Pennsylvanian Pool, in the interval from 10,440 feet to 10,700 feet in its New Mexico BO State Well No. 2 located 1980 feet from the North line and 660 feet from the West line of Section 24, Township 11 South, Range 32 East, N.M.P.M., Lea County, New Mexico.

This application has been set for hearing before an Examiner of the Oil Conservation Division on September 19, 1990. You do not need to be present at the hearing, but as the operator of a leasehold within one-half mile of the proposed disposal well or the owner of the surface of the land on which the well is located, you may appear and present testimony. Failure to appear at the hearing or otherwise become a party of record in this case will preclude you from challenging this matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

Re: Application of Texaco, Inc. for Salt Water Disposal, Lea County, New Mexico.

Dear Ms Wright:

This letter is to advise you that Texaco, Inc. has filed an application with the New Mexico Oil Conservation Division seeking authority to dispose of produced salt water by injection into the Devonian formation, Moore Devonian Pool and Moore Devonian Permo Pennsylvanian Pool, in the interval from 10,440 feet to 10,700 feet in its New Mexico BO State Well No. 2 located 1980 feet from the North line and 660 feet from the West line of Section 24, Township 11 South, Range 32 East, N.M.P.M., Lea County, New Mexico.

This application has been set for hearing before an Examiner of the Oil Conservation Division on September 19, 1990. You do not need to be present at the hearing, but as the operator of a leasehold within one-half mile of the proposed disposal well or the owner of the surface of the land on which the well is located, you may appear and present testimony. Failure to appear at the hearing or otherwise become a party of record in this case will preclude you from challenging this matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

by

Re: Application of Texaco, Inc. for Salt Water Disposal, Lea County, New Mexico.

Gentlemen:

This letter is to advise you that Texaco, Inc. has filed an application with the New Mexico Oil Conservation Division seeking authority to dispose of produced salt water by injection into the Devonian formation, Moore Devonian Pool and Moore Devonian Permo Pennsylvanian Pool, in the interval from 10,440 feet to 10,700 feet in its New Mexico BO State Well No. 2 located 1980 feet from the North line and 660 feet from the West line of Section 24, Township 11 South, Range 32 East, N.M.P.M., Lea County, New Mexico.

This application has been set for hearing before an Examiner of the Oil Conservation Division on September 19, 1990. You do not need to be present at the hearing, but as the operator of a leasehold within one-half mile of the proposed disposal well or the owner of the surface of the land on which the well is located, you may appear and present testimony. Failure to appear at the hearing or otherwise become a party of record in this case will preclude you from challenging this matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

WILLIAM F. CARR

Re: Application of Texaco, Inc. for Salt Water Disposal, Lea County, New Mexico.

Dear Mr. and Mrs. Schuman:

This letter is to advise you that Texaco, Inc. has filed an application with the New Mexico Oil Conservation Division seeking authority to dispose of produced salt water by injection into the Devonian formation, Moore Devonian Pool and Moore Devonian Permo Pennsylvanian Pool, in the interval from 10,440 feet to 10,700 feet in its New Mexico BO State Well No. 2 located 1980 feet from the North line and 660 feet from the West line of Section 24, Township 11 South, Range 32 East, N.M.P.M., Lea County, New Mexico.

This application has been set for hearing before an Examiner of the Oil Conservation Division on September 19, 1990. You do not need to be present at the hearing, but as the operator of a leasehold within one-half mile of the proposed disposal well or the owner of the surface of the land on which the well is located, you may appear and present testimony. Failure to appear at the hearing or otherwise become a party of record in this case will preclude you from challenging this matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

Re: Application of Texaco, Inc. for Salt Water Disposal, Lea County, New Mexico.

Gentlemen:

This letter is to advise you that Texaco, Inc. has filed an application with the New Mexico Oil Conservation Division seeking authority to dispose of produced salt water by injection into the Devonian formation, Moore Devonian Pool and Moore Devonian Permo Pennsylvanian Pool, in the interval from 10,440 feet to 10,700 feet in its New Mexico BO State Well No. 2 located 1980 feet from the North line and 660 feet from the West line of Section 24, Township 11 South, Range 32 East, N.M.P.M., Lea County, New Mexico.

This application has been set for hearing before an Examiner of the Oil Conservation Division on September 19, 1990. You do not need to be present at the hearing, but as the operator of a leasehold within one-half mile of the proposed disposal well or the owner of the surface of the land on which the well is located, you may appear and present testimony. Failure to appear at the hearing or otherwise become a party of record in this case will preclude you from challenging this matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

WILLIAM F. CARR

Gentlemen:

This letter is to advise you that Texaco, Inc. has filed an application with the New Mexico Oil Conservation Division seeking authority to dispose of produced salt water by injection into the Devonian formation, Moore Devonian Pool and Moore Devonian Permo Pennsylvanian Pool, in the interval from 10,440 feet to 10,700 feet in its New Mexico BO State Well No. 2 located 1980 feet from the North line and 660 feet from the West line of Section 24, Township 11 South, Range 32 East, N.M.P.M., Lea County, New Mexico.

This application has been set for hearing before an Examiner of the Oil Conservation Division on September 19, 1990. You do not need to be present at the hearing, but as the operator of a leasehold within one-half mile of the proposed disposal well or the owner of the surface of the land on which the well is located, you may appear and present testimony. Failure to appear at the hearing or otherwise become a party of record in this case will preclude you from challenging this matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

A handwritten signature in cursive script, appearing to read "William F. Carr".
