Re: Case No. 8337
Schalk Development Company
Hardship Gas Well Classification
Schalk 62 #1 well

Dear Mr. Quintana:

Enclosed are Production Rate versus Cumulative Production plots for the subject well and the offset well.

We know from experience what happened to the Schalk 63 #1 well, and we would like to salvage the reserves under the Schalk 62 #1 well.

If there are other questions, please contact me.

Yours very truly,

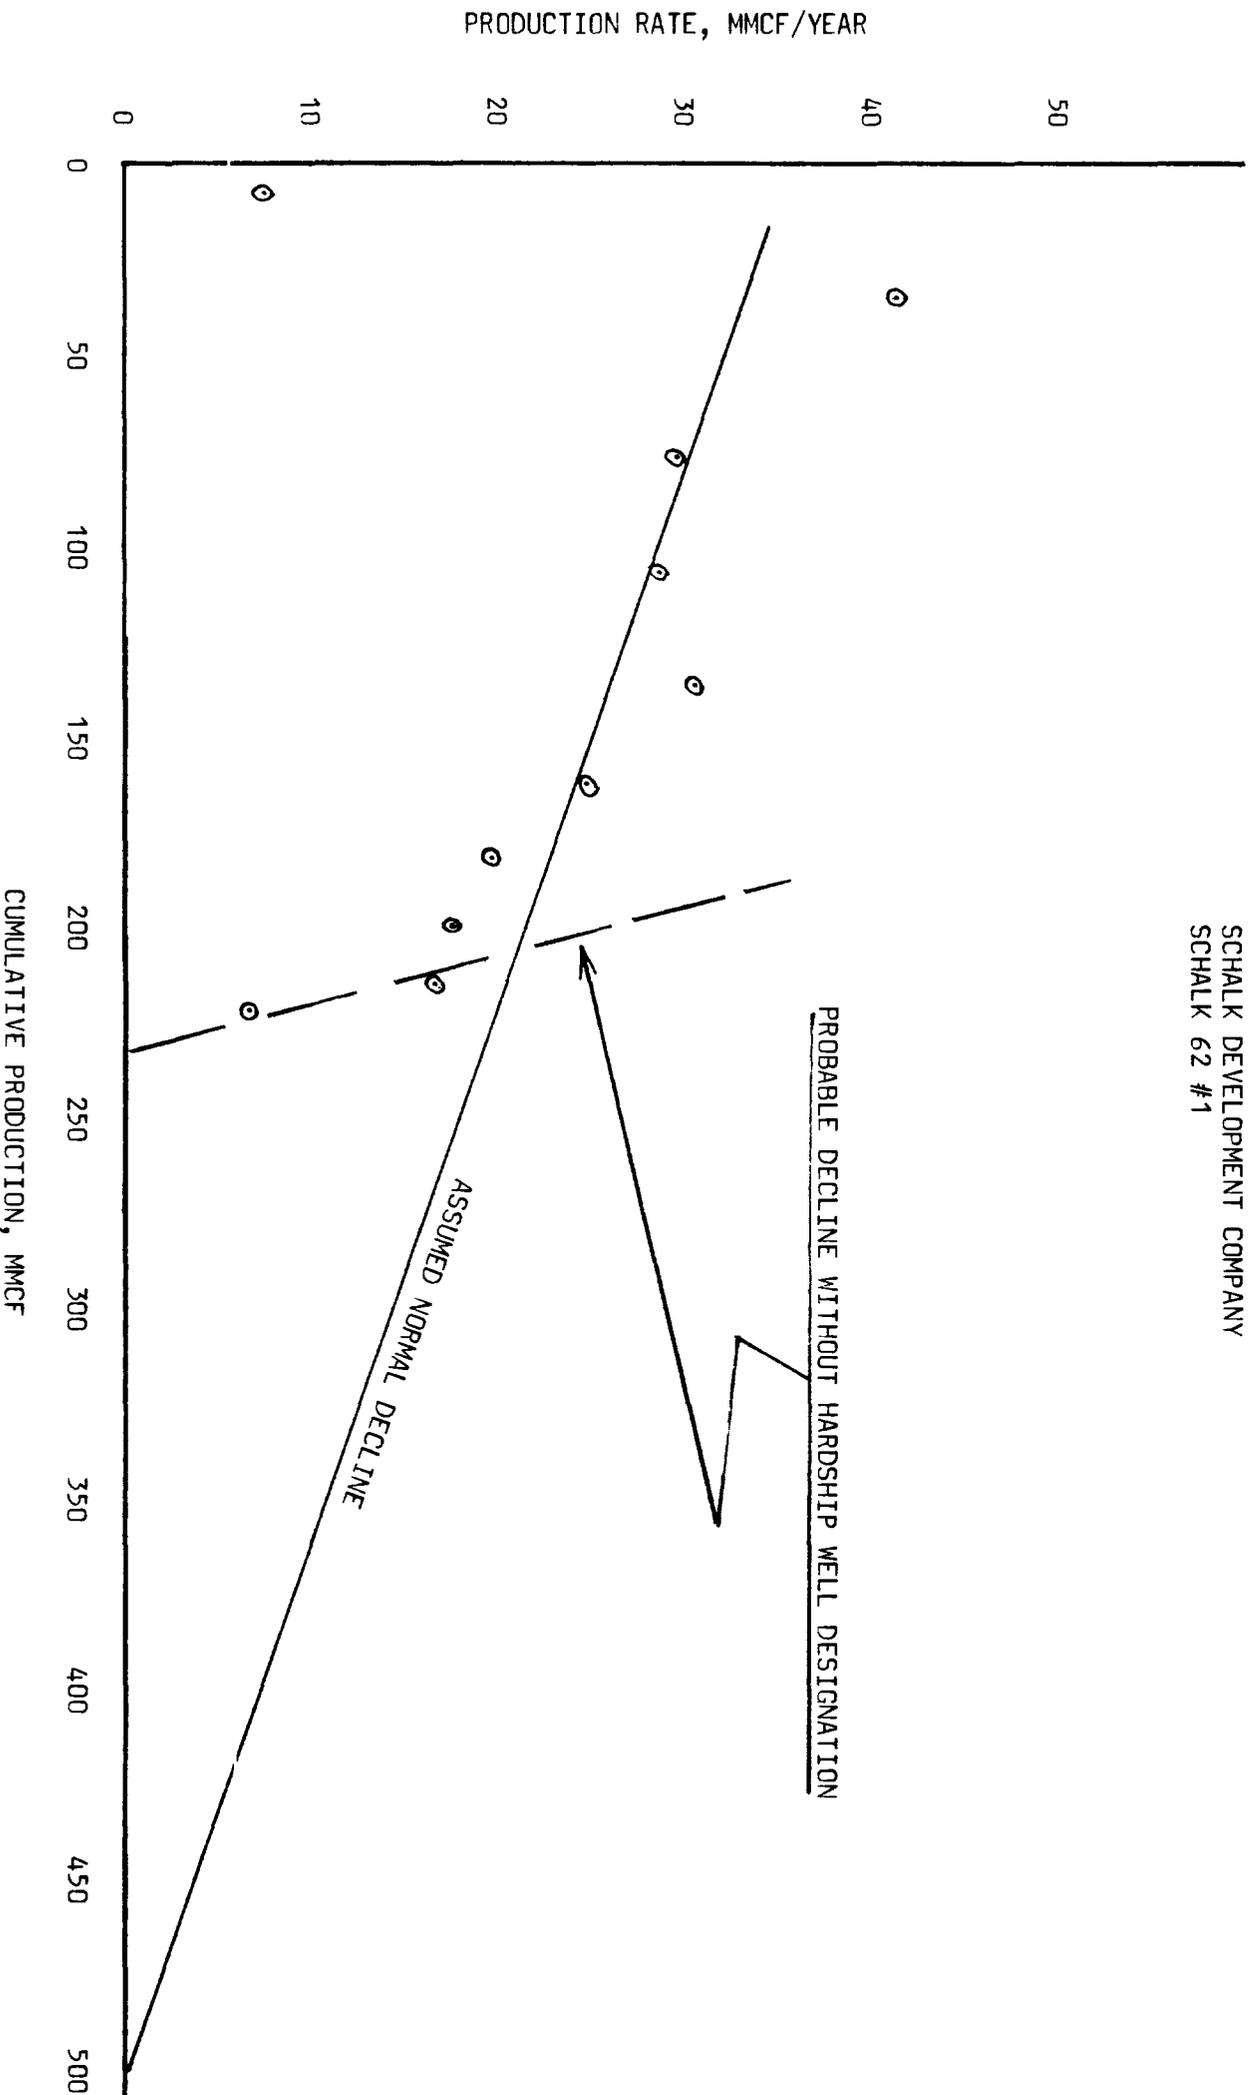

A. R. Kendrick

Re: Case 8337, Order No. R-7749, Hardship
Gas Well - Schalk #62-1

Gentlemen:

Thank you for the additional information on the subject well and for the copy of the 1986 extension. Our file copy evidently was misplaced.

Your request of extension of the hardship classification is hereby granted and will continue in effect until May 31, 1988, in the absence of other action by the Division.

We hope you will be successful in returning the well to production.

Yours very truly,

A handwritten signature in cursive script, appearing to read "V. T. Lyon".

RE: Case 8337, Order R-7749
Hardship Gas well
Schalk #62-1

Gentlemen:

In response to your letter dated July 13, 1987, please be advised that we continue to classify the referenced well as a producing well. In July, 1986, a high line pressure was suddenly encountered in the Northwest Pipeline system. The pressure was too high for the referenced well to produce and the well logged off. As indicated on our Hardship application, production is difficult to reestablish in this well; however, we plan to perform swabbing operations on this well before the end of the year and expect it to resume production at that time.

As demonstrated by the above described behavior of this well, it remains difficult to reestablish production in this well if production ceases, and we request that this well's classification as a Hardship Gas well be extended by the Division.

Enclosed is a copy of the Hardship Classification extension we received last year.

Please contact me if you need further information.

Very truly yours,

Claudia Short

Re: Case 8337 - Order No. R-7749
Hardship Gas Well Classification
Schalk Devt. Co. Schalk No. 62-1

Gentlemen:

Your request by letter dated July 1, 1987 for extension of the subject classification has been received. In reviewing our records, we do not find an extension past May 31, 1986. Further, we note no production from the well past July 1986.

We would appreciate your providing some indication of continuing need for extension of classification before proceeding with your request.

Yours very truly,

VICTOR T. LYON,
Chief Petroleum Engineer
