BEFORE THE  
OIL CONSERVATION DIVISION  
NEW MEXICO DEPARTMENT OF ENERGY AND MINERALS

IN THE MATTER OF THE APPLICATION  
OF MORRIS R. ANTWEIL FOR COMPULSORY  
POOLING, LEA COUNTY, NEW MEXICO.

Case 8409

APPLICATION

Comes now, MORRIS R. ANTWEIL, by and through his undersigned attorneys and, as provided by §70-2-17, N.M.S.A. (1978), hereby makes application for an order pooling all of the mineral interests from the surface to the base of the Bough "C" formation (approximate depth of 9950 feet) in and under the NE/4 of Section 7, Township 9 South, Range 36 East, N.M.P.M., Lea County, New Mexico, and in support thereof would show the Division:

1. Applicant owns or represents approximately 97% of the working interest in and under the NE/4 of Section 7, and applicant has the right to drill thereon.

2. Applicant proposes to dedicate the above-referenced pooled unit to a well to be drilled at an orthodox location 1980 feet from the North line and 660 feet from the East line of said Section 7.

3. Applicant has sought and obtained either voluntary agreement for pooling or farmout from all other interest owners in the NE/4 of Section 7, except the following:

|               |          |
|---------------|----------|
| J. V. Cowan   | .0156 MI |
| C. L. Corbett | .0156 MI |

4. Said pooling of interest and well completion will avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

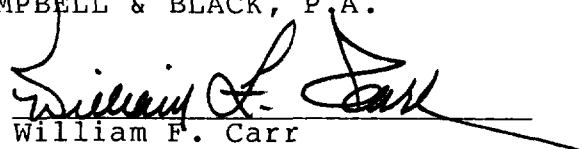

5. In order to permit the applicant to obtain his just and fair share of the oil and gas underlying the subject lands, the mineral interest should be pooled, and applicant should be designated the operator of the well to be drilled.

WHEREFORE, applicant prays that this application be set for hearing before a duly appointed examiner of the Oil Conservation Division on November 14, 1984, and that after notice and hearing as required by law, the Division enter its order pooling the lands, including provisions for applicant to recover his costs of drilling, equipping and completing the well, his costs of supervision while drilling and after completion, including overhead charges, and imposing a risk factor for the risk assumed by the applicant in drilling, completing and equipping the well, and making such other and further provisions as may be proper in the premises.

Respectfully submitted,

CAMPBELL & BLACK, P.A.
