Gentlemen:

Attached please find the unsigned waiver of objection you provided for the subject unorthodox location in the Antelope Sink (Upper Penn) Field. As we discussed with you and Mr. Terrell Downing at your office on December 5, Exxon does object to your drilling the subject well in the captioned unorthodox location. By copy of this letter, we are notifying the New Mexico Oil Conservation Division of our intent to protest at your December 19 hearing.

Should you propose an alternate location for the subject well, Exxon would again evaluate our position, both as an interest owner and offset lessee.
