RE: Gary-Williams application for extension
of Rio Puerco-Mancos Oil Pool, and the
amendments requiring 320 acre spacing.

My lease: NM-59678 - T. 20 N. R. 2 W.
Sandoval County, New Mexico
Sec. 9: S $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$
Sec. 17: E $\frac{1}{2}$ E $\frac{1}{2}$
480 Acres

Dear Mr. Stamets:

This letter is a protest concerning the proposed extension of the Rio Puerco-Mancos Oil Pool as it pertains to my acreage in T. 20 N. R. 2 W. as described above; and especially against the Gary-Williams request for the RIGID AND UNCHANGEABLE REQUIREMENT for 320 acres spacing per well.

1. It has NOT been geologically proven that the Rio Puerco-Mancos Oil Pool extends as far as proposed by the applicant.
2. The assumption that present depths of the producing wells can adequately and economically drain 320 acres OVER THE WHOLE PROPOSED AREA HAS NOT BEEN PROVEN.
3. This application is ARBITRARY, RESTRICTIVE, and PROHIBITIVE for the small lease owner within the proposed area.
4. It appears that the applicants request to cover such an unproven and extensive area of thirty three square miles, and the unchangeable requirement for no variation whatsoever in the 320 acre spacing demand, is unique and unusual in the industry.

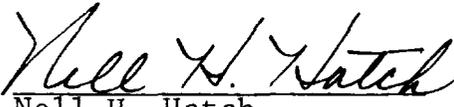

5. Therefore, I strongly protest against the inclusion of my acreage within the 320 acre spacing limitation.
6. Therefore, I respectfully request of the Commission that my acreage be exempted from the 320 acre spacing requirement.

Respectfully submitted,

DKH/nh
