<i>Marshall</i>	EXHIBIT NO. <u>4</u>
<i>Young</i>	CASE NO. <u>8655</u>

Gentlemen:

Your application of June 25, 1985, filed with the BLM by Edmundson & Associates on your behalf requests the designation of the Saltys Unit area, embracing 23,822.14 acres, more or less, Grant County, New Mexico, as logically subject to exploration and development under the unitization provisions of the Mineral Leasing Act as amended, for all formations.

Pursuant to unit plan regulations 43 CFR 3180, the land requested as outlined on your plat marked Marshall R. Young Oil Co., Saltys Unit, Grant County, New Mexico is hereby designated as a logical unit area for all depths.

The unit agreement submitted for the area designated should provide for a well to test the base of the El Paso formation, or to a depth of 10,000 feet. Your proposed use of the Form of Agreement for Unproved Areas will be accepted with the modifications requested in your application and the corrections applied as requested by the Bureau of Land Management and shown in red on the enclosed Form of Agreement.

If conditions are such that further modification of said standard form is deemed necessary, three copies of the proposed modifications with appropriate justification must be submitted to this office for preliminary approval.

In the absence of any type of land requiring special provisions or any objections not now apparent, a duly executed agreement identical with said form, modified as outlined above, will be approved if submitted in approvable status within a reasonable period of time. However, notice is hereby given that the right is reserved to deny approval of any executed agreement submitted which in our opinion, does not have the full commitment of sufficient lands to afford effective control of operations in the unit area.

When the executed agreement is transmitted to the BLM for approval, include the latest status of all acreage. In preparation of Exhibits "A" and "B", follow closely the format of the sample exhibits attached to the reprint of the aforementioned form.

GEOLOGICAL REPORT
PROPOSED SALTYS UNIT AREA
GRANT COUNTY, NEW MEXICO

BEFORE EXAMINER QUINTANA	
OIL CONSERVATION DIVISION	
<i>Marshall Young</i>	EXHIBIT NO. <u>5</u>
CASE NO. <u>8655</u>	

INTRODUCTION

Marshall R. Young Oil Co. proposes the formation of a Federal Unit to be known as the Saltys Unit covering approximately 23,822.78 acres. The outline of the proposed unit is shown on the attached map, labeled Exhibit "A". It is located approximately 20.5 miles southeast of Lordsburg, New Mexico, in Grant County.

GEOLOGY

The proposed Saltys Unit is located on the northeast flank of the Pedregosa Basin of southwest New Mexico. Seismic exploration has delineated an anticline trending east to west bounded on the north and west by faults. The time structure map of the top of the Lower Paleozoics, Exhibit "C", indicates approximately 300 milliseconds of structural closure on the anticline with 500 milliseconds of lateral closure into the faults.

The nearest drilling is 3.5 miles west at a location in Section 14, Township 25 South, Range 16 West. The nearest production is 190 miles east in Lea County, New Mexico.

Primary objectives are the Paleozoic carbonates and Cretaceous sandstones which have yielded shows of oil and gas in several wells drilled in this basin. There is no production in the basin.

DELINEATION OF THE UNIT AREA

The potential producing area of the proposed Saltys Unit is defined as the area south of an east-west trending down to the north normal fault and within the 1.500 second contour that closes into the north and west bounding faults of the unit. All full sections, at least 30% of which lie within the potential producing area, have been included in the unit outline. The 30% cut-off figure was used to limit the size of the area to under 25,000 acres, the maximum allowable acreage for a one well drilling obligation under Bureau of Land Management guidelines.

Proposed Saltys Unit Area
Grant County, New Mexico
Page 2

PROPOSED UNIT WELL

The initial unit well will be drilled in the northeast quarter of Section 33, Township 25 South, Range 15 West, to the base of the El Paso Formation or 10,000 feet, whichever is less.
