IN THE MATTER OF THE APPLICATION
OF DOYLE HARTMAN FOR COMPULSORY
POOLING, LEA COUNTY, NEW MEXICO.

OIL CONSERVATION DIVISION
Case No. 8689

AMENDED APPLICATION

Comes now, DOYLE HARTMAN, by and through his undersigned attorneys and, as provided by Section 70-2-17, N.M.S.A (1978), hereby makes application for an order pooling all of the mineral interests from the surface to the base of the Jalmat gas pool, in and under the N/2 NW/4 and the SW/4 NW/4 of Section 20, Township 25 South, Range 37 East, N.M.P.M., Lea County, New Mexico, and in support thereof would show the Division:

1. Applicant owns or represents approximately 100% of the working interest in and under the N/2 NW/4 and the SW/4 NW/4 of Section 20, and applicant has the right to drill thereon.

2. Applicant proposes to dedicate the above-referenced non-standard proration unit (approved on January 6, 1982 by Administrative Order NSP-1275) to an existing well drilled at an orthodox location 2225 feet from the North line and 790 feet from the West line of said Section 20.

3. Applicant has sought and obtained either voluntary agreement for pooling or farmout from all other interest owners in the N/2 NW/4 and the SW/4 NW/4 of said Section 20, except for those interests described in Appendix A attached hereto.

4. Said pooling of interests and well completion will

avoid the drilling of unnecessary wells, will prevent waste and will protect correlative rights.

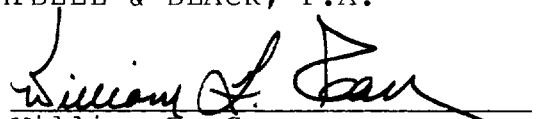

5. In order to permit the applicant to obtain his just and fair share of the oil and gas underlying the subject lands, the mineral interests should be pooled, and applicant should be designated the operator of the well to be drilled.

WHEREFORE, applicant prays that this application be set for hearing before a duly appointed Examiner of the Oil Conservation Division on October 23, 1985, and that after notice and hearing as required by law, the Division enter its order pooling the lands, including provisions for applicant to recover his costs of drilling, equipping and completing the well, his costs of supervision while drilling and after completion, including overhead charges, and imposing a risk factor for the risk assumed by the applicant in drilling, completing and equipping the well, approving the location of the well as proposed by applicant, and making such other and further provisions as may be proper in the premises.

Respectfully submitted,

CAMPBELL & BLACK, P.A.
