Case 8806

Oil Conservation Division
P. O. Box 2088
Santa Fe, New Mexico 87504-2088
Attn: Florean Davidson

RE: Postponement of Hearing on the
Pan Canadian #1 well.

Dear Florean:

In our conversation on March 4, 1986 I requested an indefinite postponement on the hearing for conversion to waste water disposal for the above mentioned well. In earlier conversations with the OCD, Coquina was told that it would have to re-enter the Werthiem #1 well and set plugs at various intervals. First off this well is on another lease; which is operated by Exxon. Second off Coquina feels that entering a wellbore on someone else's lease would be cause for a lawsuit.

For these reasons Coquina has no alternative but to look elsewhere for disposal of its waste water.

Sincerely,

COQUINA OIL CORPORATION

D. Patrick Darden
Engineer

AFFIRMATIVE STATEMENT

I hereby affirm that I have examined available Geological and Engineering data and find no evidence of open faults or any other Hydrologic connection between the Cisco (disposal) zone and any underground source of drinking water.

Sincerely,

COQUINA OIL CORPORATION
