Gentlemen:

Per the attached May 15, 1986 letter, Exxon Corporation requested approval of the captioned unorthodox well location and non-standard proration unit. The proposed well location is 1980' FNL and 525' FWL of Section 7, T-17-S, R-29-E, Eddy County, New Mexico with a proration unit consisting of the north half of Section 7. When notifying offset operators, we inadvertently failed to notify you as an offset operator in the southwest quarter of Section 8 (to the east of Section 7). If you have no objection to our application, we would very much appreciate your executing the attached waiver of objection, forwarding one copy to the NMOCD in Santa Fe and returning one copy to Exxon.

Please call our Bill Duncan at (915) 686-4105 if you have any questions and for us to pick up your waiver. We would appreciate a reply at your earliest convenience, as our application is currently set for hearing on June 12.

Sincerely,

James D. Howell
