III. Issues for Hearing:

The Commission states that the following constitute the only issues to be considered by the Commission at the hearing:

1. The current maximum producing allowable for each pool is 800 barrels of oil per day per 640 acres, limited however, by a gas-oil ratio of not more than 600 cubic feet of gas per barrel of oil. The Commission will consider at the hearing the following:
 - (a) Whether the current oil allowable for each pool should be increased or decreased and if so, to what rate and why; and
 - (b) Whether the current gas-oil ratio limitation should be increased or decreased and if so, to what rate and why.
2. All parties should be prepared to declare and support what is the most efficient rate of production for the subject Mancos Oil Pool(s) and whether these pools are rate sensitive.
3. An analysis and interpretation of the results of the June 27, 1987 - February 19, 1988 production and BHP testing and how the results effect other issues under consideration.
4. A determination of whether there is migration between the Gavilan and West Puerto Chiquito Mancos Pools; whether the horizontal boundaries of the pool are appropriate; and whether correlative rights are being violated?
5. Whether pressure maintenance would be economical and prevent waste in the Gavilan field.

IV. Issues not for Hearing:

It is stated that:

1. The Commission will not hear any issue not set forth in III above.
2. The Commission will not address the issue of modification of the existing 640-acre spacing for either pool.
3. The Commission will not consider a modification of the vertical boundaries of either pool.

V. Proposed schedule of proceedings:

It is stated that the proceedings shall be organized as follows:

1. That the parties shall be aligned so that all parties seeking to increase the allowables or GCR rates shall be identified as the proponents and those parties supporting an allowable based upon current rates, or lower rates, shall be identified as opponents.
2. The time shall be divided equally between both groups so that the direct and cross examination by the opponents approximately equals the time used by the proponents for direct and cross examination.
3. Brief position papers and witness lists will be sent by proponents and opponents to the OCD and each other outlining their major arguments by June 7, 1988. Exhibits will be exchanged Monday Morning, June 13, 1988 at 9:00 a.m.
4. The order of proceedings shall be:

Monday A.M. Presentation by Oil Conservation Commission and Commissioner of Public Lands of expert witnesses and cross examination.

Monday P.M. Proponents present direct case
through
Tuesday A.M. subject to cross examination.

Tuesday P.M. Opponents present direct case
through
Wednesday A.M. subject to cross examination

Wednesday P.M. Rebuttal by Proponents

Thursday A.M. Rebuttal by Opponents

Thursday A.M. Surrebuttal by Proponents

(Note: Monday P.M. through Thursday A.M. - 3 days - can be allocated 1 1/2 days each with each side dividing up their time according to their preference.)
