Re: Case No. 9140  
Order No. R-8481

Dear Mr. LeMay:

The above order was issued on July 27, 1987 granting Permian exception to Ordering Paragraph (3) of Division Order No. R-3221, as amended to dispose of up to a maximum of 1000 barrels of saltwater per day in Eddy County, New Mexico. Construction of this facility has been indefinitely delayed due to economic conditions in the oil field. This letter is Permian's request to maintain the status of the above order in anticipation of a more favorable economic climate and a request for exclusion from monthly disposal volume reports (Form No. C-120-A) until actual operations commence.

Please contact me at the below address or call at 713/787-2558 should you have any question.

Sincerely,

Thomas M. Harris
