Section 15-20S-25E  
Eddy County, New Mexico

Gentlemen:

Nearburg Producing Company has applied to the New Mexico Oil Conservation Commission for the captioned non-standard well location to be drilled on an E/2 proration unit. The non-standard location is necessitated by County Road #28, which prevents the drilling of a well at a standard location 1980'FNL and 660'FEL. As an offset lease owner or mineral owner, you have the right to appear before the Commission in opposition to this location, however, due to the location being unorthodox for topographic reasons, Nearburg hereby requests your waiver of opposition to the unorthodox location, which will enable administrative approval.

If you agree to waive opposition to this location, please so indicate by signing and dating where provided below, returning one copy of this letter to my attention. The other copy is for your files. Due to the upcoming holidays, it will be appreciated if your waiver can be returned prior to the Christmas holidays.

Please call me if you have any questions.

Yours truly,
