Gentlemen:

Enclosed, please find a copy of the Application of TXO Production Corp. to Amend Order No. R-8570, Lea County, New Mexico.

The case is being readvertised for hearing before the New Mexico Oil Conservation Division, in Santa Fe, New Mexico, on March 30, 1988. In the absence of objection, the amendment will be granted. A copy of the original Order is enclosed for your information. The amendment requested is to permit the drilling of a well at a standard location. This action is required because of mechanical problems encountered in the attempted re-entry of the abandoned Hightower No. 1 Well.

Please contact the undersigned if you have any questions regarding this application.

Sincerely yours,

DICKERSON, FISK & VANDIVER

Re: Case No. 9233, Order No. R-8570
Lea County, New Mexico

Dear Mr. Lemay:

Enclosed for filing, please find three copies of the Application of TXO Production Corp. to Amend Order No. R-8570, Lea County, New Mexico. We have previously filed an application for a nunc pro tunc order for the sole purpose of amending the previous order to permit the drilling of the subject well vertically at a standard location because of mechanical problems preventing the re-entry attempt. If our client is to receive the benefit of our pooling statute, it must receive an order prior to the well being completed. In view of the extenuating circumstances described in the enclosed application, any assistance your office can render in expeditiously processing the application will be appreciated.

We understand this matter is set for hearing before an Examiner on March 30, 1988.

Thank you.

Sincerely yours,

DICKERSON, FISK & VANDIVER

Re: NMOCD Case No. 9233, Order No. R-8570
Hightower No. 1 Re-Entry
Township 17 South, Range 37 East, NMPM
Section 4: Lot 1, SE/4 NE/4 (E/2 NE/4)
Lea County, New Mexico

Dear Mr. Stogner:

Order No. R-8570 pooled all mineral interests in Lot 1, SE/4 NE/4, Section 4, Township 17 South, Range 37 East, N.M.P.M., Lea County, New Mexico, and authorized TXO Production Corp. to re-enter the abandoned Hightower No. 1 Well and to directionally drill and deepen the well to a standard bottom hole location for the Shipp-Strawn Pool.

The re-entry attempt has been unsuccessful because of mechanical problems. TXO Production Corp. proposes to move the rig, now on location, to a standard surface location under the Shipp-Strawn Pool Rules, in Lot 1 of said Section 4, and drill the well vertically to a standard bottom hole location under such rules on the same spacing unit previously approved.

The record will reflect that this contingency was anticipated and at the hearing held on October 7, 1987, the applicant presented evidence on the point and requested that the order permit the drilling of the well in the same manner as now proposed if the re-entry proved unsuccessful. Although TXO Production Corp. was

Mr. Michael E. Stogner, Examiner
-2-

opposed at the hearing, no issue was raised on this point. The Order issued inadvertently did not address the requested procedure.

I believe the record adequately covers this eventuality, and that this would be an appropriate case for entry of a Nunc Pro Tunc Order authorizing the procedure now proposed. There will not be any prejudice to any third parties under this procedure. Since the rig is on location and time is of the essence, prompt consideration of this request by your office is greatly appreciated.

Sincerely yours,

DICKERSON, FISK & VANDIVER
