Re: First Amended Application  
of Terra Resources, Inc  
For Compulsory Pooling  
Eddy County New Mexico.  
NMOCD Case 9472

Dear Mr. LeMay:

Please find enclosed our first amended application on behalf of Terra Resources, Inc. for a compulsory pooling and unorthodox well location order. The original application was filed on August 31, 1988 as Division Case 9472. Terra Resources is moving its location so that it will be a standard well location as to all the deep gas pools with the exception of the Atoka-Penn pool. Accordingly, please readvertise and continue Case 9472 to the Examiner docket set for September 14, 1988.

We suggest the following for an amended advertisement for the newspaper and for the docket:

(Continued and readvertised from August 31, 1988 examiner's hearing) Application of Terra Resources, Inc. for compulsory pooling and an unorthodox well location, Eddy County, New Mexico. Applicant, in the above-styled cause, seeks an order pooling all mineral interests from the top of the Wolfcamp to either the base of the Morrow formation or to a depth of 9300 feet, whichever is deeper, (which includes but is not necessarily limited to the Undesignated Dayton-Wolfcamp Gas Pool, Undesignated Boyd-Morrow Gas Pool, and Undesignated Atoka-Pennsylvanian Gas Pool) underlying Lots 1 through 4 and the E/2 W/2 of Section 31, Township 18 South, Range 26 East, NMPM, Eddy County, New Mexico, forming a standard 316-acre, more or less, gas

spacing and proration unit, to be dedicated to a well to be drilled at an unorthodox gas well location 1980 feet from the North line and 1513 feet from the West line (Unit F) of said Section 31. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of the applicant as operator of the well and a charge for risk involved in drilling said well. Said location is approximately 6 miles northwest by north of Lakewood, New Mexico.

By copy of this letter to all parties to be pooled, we are notifying them by certified mail-return receipt, that they have the right to appear at the hearing, to make a statement to the Division, to present evidence and cross-examine witnesses either in support of or in opposition to the application. Those parties are directed to contact the Division or the applicant's attorney to determine what additional rights they may have. In addition, they are advised that the entry of a compulsory pooling order will affect their rights to share in the production from the subject well.

Very truly yours,

W. Thomas Kellahin

STATE OF NEW MEXICO

OIL CONSERVATION DIVISION

IN THE MATTER OF THE APPLICATION  
OF TERRA RESOURCES INC  
COMPULSORY POOLING  
EDDY COUNTY, NEW MEXICO.

CASE: 9472

FIRST AMENDED  
A P P L I C A T I O N

COMES NOW, TERRA RESOURCES INC., by and through its attorneys, Kellahin, Kellahin & Aubrey and in accordance with Section 7-2-17(c) NMSA (1978) applies to the New Mexico Oil Conservation Division for an order pooling all mineral interests from top of Wolfcamp to the base of the Morrow formation or 9300 feet, which ever is deeper, underlying the W/2 of Section 31, T18S, R26E, Eddy County, New Mexico, forming a standard 316 acre spacing and proration unit for its Sleepy #1 well to be drilled at an unorthodox gas well location 1980 feet from the North line and 1513 feet from the West line of Section 31 to be dedicated to the subject well to be drilled to a depth of approximately 9300 feet.

1. Applicant owns the right to drill and develop the W/2 Section 31, T18S, R26E, Eddy County, New Mexico.

2. Applicant proposes to drill the subject well at an unorthodox well location in the event of production

from the Atoka-Pennsylvanian Gas Pool and at a standard well location in the event of gas production from any other "deep" gas formation which is spaced on 320 acre spacing as shown on Exhibit "A" attached hereto.

3. Applicant has sought the voluntary participation of all parties in the creation of the above described spacing and proration unit and the drilling of the above well.

4. As of the date of this application, Terra Resources has been unable to obtain voluntary agreement from the following interested parties shown on Exhibit "B" attached hereto and incorporated by reference herein.

5. Applicant notified all of the offsetting parties shown on Exhibit "C" of the possibility of an unorthodox well location. Those parties are again notified that the applicant has amended its location to a standard location as to all deep gas pools except for the Atoka Penn Pool for which the subject well location will be crowding an interior quarter section line.

6. Applicant is unable to determine if the Yates Petroleum Corporation operated "Cost-A-Plente" Working Interest Unit, dated August 31, 1979, and covering the S/2 of the subject section 31 (along with other acreage) is still in full force and effect. Accordingly, in the

7-

event said unit is not effective, then applicant has notified and intends by this application to pool any and all mineral interest owners in the Cost-A-Plente Unit that are affected by this application. Said mineral interest owners are shown on Exhibit "D" attached hereto.

7. Pursuant to Division notice requirements, applicant has notified the parties listed in Exhibit "B,C,D", attached hereto, of this application for compulsory pooling and the applicant's request for a hearing before the Division to be set on September 14, 1988.

8. In order to obtain its just and equitable share of the potential production underlying the above tract, applicant needs an order pooling the mineral interests involved in order to protect applicant's correlative rights and prevent waste.

WHEREFORE, applicant prays that this application be set for hearing before the Division's duly appointed examiner, and that after notice and hearing as required by law, the Division enter its order pooling the mineral interest described herein. Applicant further prays that it be named operator of the well, and that the order make provisions for applicant to recover out of production its costs of drilling, completing and equipping the subject

well, costs of operation, including costs of supervision,  
and a risk factor in the amount of 200% for the drilling  
and completing of the well, for such other and further  
relief as may be proper.

Respectfully submitted,

By
