Attn: John O'Brien

Dear Mr. O'Brien:

As I mentioned on the phone, I am preparing to drill two wells at unorthodox locations offsetting my new discovery which is located in the SW/4NW/4 of Section 29, Township 7 South, Range 31 East, Chaves County, New Mexico. In addition, for your information, the NMOCC has granted me 160 acre spacing for this Devonian gas field and the NW/4 of Section 29 is dedicated to the discovery well.

These two locations are as follows:

1. An 8800' Devonian test to be located 330' FSL and 660' FWL Section 20, T7S, R31E, Chaves County, NM
2. An 8800' Devonian test to be located 2310' FSL and 1650' FWL Section 29, T7S, R31E, Chaves County, NM

I would like to secure Flag-Redfern's approval on these locations in order to avoid a hearing. If you are agreeable, please return one executed copy of this letter, retaining the other for your files.

Very truly yours,
