ENDER

Denver, Co 80202

Two circular stamps from Denver, Colorado, dated November 1991. Each stamp features the text 'DENVER CO' at the top, 'NOV' at the bottom, and '1991' in the center. To the right of the date, there are four thick vertical black bars. Handwritten numbers are present: '135' is written to the right of the bars on the left stamp, and '13' is written to the right of the bars on the right stamp. The stamps are placed on a grid background.

Amoco Production Company hereby makes application for a hearing and resulting order by the New Mexico Oil Conservation Division for an exception to Rule 303-A and 309-A to surface commingle condensate production from gas wells completed in the Pictured Cliffs, Mesaverde, Chacra and Dakota formations in the San Juan 28-7 Unit, portions of T28N-R7W and T27N-R7W, Rio Arriba County, New Mexico. Amoco requests that this matter be set for hearing on the next available Examiner's docket, now scheduled for December 5, 1991.

In support of this application, Amoco Production Company states the following:

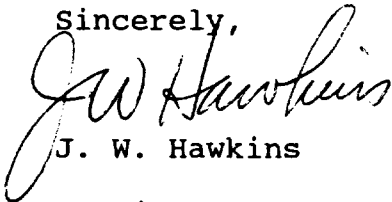

1. Amoco Production Company is the operator of the San Juan 28-7 Unit located in portions of T28N-R7W and T27N-R7W, Rio Arriba County, New Mexico.
2. The San Juan 28-7 Unit is a Federally supervised unit consisting of four participating areas in the Pictured Cliffs, Mesaverde, Chacra and Dakota formations. Each of these participating areas have different ownership interests.
3. Amoco plans to surface commingle condensate production from 32 existing dual gas wells or pairs of adjacent gas wells and any future dual gas wells or pairs of adjacent wells as needed.
4. The gas production from each gas well in the San Juan 28-7 Unit will continue to be individually metered and will not be affected by the surface commingling of condensate.

William J. LeMay
November 7, 1991
Page 2

5. Amoco proposes to allocate the commingled condensate production back to individual wells based on annual well tests as follows: Condensate production will be calculated using the average daily condensate rate from the test multiplied by the number of days produced during the month. Any differences between calculated and sales volumes will be adjusted proportionally.
6. Amoco has reviewed this plan with the Bureau of Land Management and they are in agreement with it.
7. The approval of this application will prevent waste and protect correlative rights of all ownership interests in the San Juan 28-7 Unit.

By copy of this letter to all interest owners (working interest, royalty interest and overriding royalty interest) in the unit, we are notifying them by certified mail return receipt requested that they have the right, but not the obligation, to appear at the hearing, to make a statement to the Division, to present evidence and cross examine witnesses, either in support of or in opposition to this application. Any party desiring to appear and participate in the hearing should file with the Division, with a copy to Amoco, a pre-hearing statement, as set forth by the Division guidelines, not later than 4:00 p.m. on the Friday before the hearing.

Sincerely,

J. W. Hawkins
