Attention: John T. Gray, Production Engineer

*RE: Application for non-standard well location; Federal "27" No. 2,
Roosevelt County, New Mexico.*

Dear Mr. Gray:

Per our conversation, this application will be set for an upcoming examiner hearing since the request is based on geologic reasons and cannot be handled administratively.

For your future reference, attached is a copy of the procedures for filing administrative requests for unorthodox locations. Following these guidelines will help minimize delays in processing future applications.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael E. Stogner", with a long horizontal line extending to the right.

Michael E. Stogner
Chief Hearing Officer/Engineer

Re: Federal "27" #2 Well
2590' FSL and 330' FWL of
Sec 27, T-7S, R-37E, Unit L
Roosevelt County, New Mexico

Dear Mr. Stogner:

At this time H. L. Brown, Jr. would like to request approval for an unorthodox location on the above captioned Federal "27" #2 well.

H. L. Brown, Jr. is the only offset operator for this proposed test therefore no letters to offset operators were necessary. A land plat is enclosed for your reference.

As was discussed previously by telephone, my understanding is that since there are no offset operators other than HLB, you can waive the 20 day waiting period and approve this request Administratively. If this is not correct, please advise.

We appreciate your consideration of our request and if you have any questions or need any additional information, please feel free to call me at (915) 683-5216.

Very truly yours,

John T. Gray
Production Engineer
