1. Applicant is the operator of all wells in the Nash Draw Brushy Canyon Delaware Pool.

2. The Nash Draw Brushy Canyon Delaware Pool was created by Oil Conservation Division Order No. 10042, dated January 1, 1994, and now includes the following described acreage:

Section 18: NW/4

3. The wells in the pool are produced under statewide rules that limit production to 142 barrels of oil per day and a gas oil ratio of 2,000 cubic feet of gas per barrel of oil produced.

4. The Applicant seeks the promulgation of special pool rules and regulations for this pool which will increase the limiting gas oil ratio to 10,000 cubic feet of gas per barrel of oil produced.

WHEREFORE, Strata Production Company requests that this application be set for hearing before a duly appointed Examiner of the Oil Conservation Division on March 17, 1994 and that, after notice and hearing as required by law and the rules of the Division, the Division enter its Order promulgating Special Pool Rules and Regulations for the Nash Draw Brushy Canyon Delaware Pool including provisions for special Gas/Oil Ratio of 10,000 cubic feet of gas per barrel of oil produced.
